Description of the tramway

7 The tramway authorized by this order is a single line with necessary passing places, within the district of Shahabad, starting from Dehri-on-Sone, a station on the East Indian Railway, 345 miles from Calcutta and running partly on Government land in charge of the Public Works Department, and partly along the district road to Akbarpore, being a distance of about 25 miles, and entirely within the district of Shahabad

From Dehri on Sone Railway station, the line is to be taken along the district road for a short distance till it reaches the bank of the Main Western Canal thence the line is to run parallel with the canal, the rails being laid on Government land in charge of the Public Works Department, until the bridge known as the Rhotas Bridge over the canal is reached, crossing the canal at this point, the line is to come on to the district road again, and is to be laid along this road up to Akbarpore, passing through or near the villages of Tilocthu, Seerna, Tomba, Nawadih, Banjari and

Samotha, this portion of the line will be laid on the district road land, with the exception of a short length which runs through T loothu village where land will have to be acquired

The following gracious Message addressed by His Majesty the King-Emperor to the Princes and Peoples of India has this day been announced by His Excellency the Viceroy in Durbar at Jodhpur, and is published for general information

By order,

H A STUART,

Secy to the Govt of India

His Majesty the King-Emperor's Message to the Princes and Peoples of India

1 It is now fifty years since Queen Victoria, my Beloved Mother, and my August Predecessor on the Throne of these Realms, for divers weighty reasons, with the advice and consent of Parliament, took upon herself the government of the territories theretofore administered by the East India Company I deem this a fitting anniversary on which to greet the Princes and Peoples of India, in commemoration of the exalted task then solemnly undertaken Half a century is but a brief span in your long annals, yet this half century that ends today will stand amid the floods of your historic ages, a far-shining landmark The Proclamation of the direct supremacy of the Crown sealed the unity of Indian Government and opened a new era The journey was arduous, and the advance may have sometimes seemed slow, but the incorporation of many strangely diversified communities, and of some three hundred millions of the human race, under British guidance and control has proceeded steadfastly and without pause We survey our labours of the past half century with clear gaze and good conscience

2 Difficulties such as attend all human rule in every age and place have risen up from day to day They have been faced by the servants of the British Crown with toil and courage and patience, with deep counsel and a resolution that has never faltered nor shaken If errors have occurred, the Agents of my Government have spared no pains and no self-

sacrifice to correct them if abuses have been proved, vigorous hands have laboured to apply a remedy

3 No secret of empire can avert the scourge of drought and plague, but experienced administrators have done all that skill and devotion are capable of doing, to mitigate those dire calamities of nature For a longer period than was ever known in your land before, you have escaped the dire calamities of war within your borders Internal peace has been unbroken

4 In the great Charter of 1858, Queen Victoria gave you noble assurance of her earnest desire to stimulate the peaceful industry of India, to promote works of public utility and improvement, and to administer the Government for the benefit of all resident therein The schemes that have been diligently framed and executed for promoting your material convenience and advance—schemes unsurpassed in their magnitude and their boldness—bear witness before the world to the zeal with which that benignant promise has been fulfilled

5 The rights and privileges of the Feudatory Princes and Ruling Chiefs have been respected, preserved, and guarded, and the loyalty of their allegiance has been unswerving No man among my subjects has been favoured, molested, or disquieted, by reason of his religious belief or worship All men have enjoyed protection of the law The law itself has been administered without disrespect to creed or caste, or to usages and ideas rooted in your civilization, it has been simplified in form, and its machinery adjusted to the requirements of ancient communities slowly entering a new world

6 The charge confided to my Government concerns the destinies of countless multitudes of men now and for ages to come, and it is a paramount duty to repress with a stern arm guilty conspiracies that have no just cause and no serious aim These conspiracies I know to be abhorrent to the loyal and faithful character of the vast hosts of my Indian subjects, and I will not suffer them to turn me aside from my task of building up the fabric of security and order

7 Unwilling that this historic anniversary should pass without some signal mark of royal clemency and grace, I have directed that, as was ordered on the memorable occasion of the Coronation Durbar in 1903, the sentences of persons, whom our Courts have duly punished for offences against the law, should be remitted, or in various degrees reduced, and it is my wish that such wrongdoers may remain mindful of this act of mercy, and may conduct themselves without offence henceforth

8 Steps are being continuously taken towards obliterating distinctions of race as the test for access to posts of public authority and power In this path I confidently expect and intend the progress henceforward to be steadfast and sure, as education spreads, experience ripens, and the lessons of responsibility are well learned by the keen intelligence and apt capabilities of India.

9 From the first, the principle of representative institutions began to be gradually introduced, and the time has come when, in the judgment of my Viceroy and Governor-General and others of my counsellors, that principle may be prudently extended Important classes among you, representing ideas that have been fostered and encouraged by British rule, claim equality of citizenship, and greater share in legislation and government The politic satisfaction of such a claim will strengthen, not impair, existing authority and power Administration will be all the more efficient, if the officers who conduct it have greater opportunities of regular contact with those whom it affects, and with those who influence and reflect common opinion about it I will not speak of the measures that are now being diligently framed for these objects They will speedily be made known to you, and will, I am very confident, mark a notable stage in the beneficent progress of your affairs

10 I recognise the valour and fidelity of my Indian troops, and at the New Year I have ordered that opportunity should be taken to show in substantial form this, my high appreciation, of their martial instincts, their splendid discipline, and their faithful readiness of service

11 The welfare of India was one of the objects dearest to the heart of Queen Victoria By me, ever since my visit in 1875, the interests of India, its Princes and peoples, have been watched with an affectionate solicitude that time cannot weaken My dear son, the Prince of Wales, and the Princess of Wales, returned from their sojourn among you with warm attachment to your land, and true and earnest interest in its well-being and content These sincere feelings of active sympathy and hope for India on the part of my Royal House and line, only represent, and they do most truly represent, the deep and united will and purpose of the people of this Kingdom

12 May Divine protection and favour strengthen the wisdom and mutual good-will that are needed for the achievement of a task as glorious as was ever committed to rulers and subjects in any State or Empire of recorded time.

The 29th October 1908

RESOLUTION—By the Government of India, Finance Department

IN Finance and Commerce Department Resolution No 4119-A, dated 9th July 1903, the conditions on which local authorities would be allowed to raise sterling loans in the open market were laid down It was explained in particular that the sanction of the Secretary of State is required to all borrowing in sterling The Governor-General in Council now gives notice that the date on which a local authority proposes to float a sterling loan must also be reported for the previous approval of the Secretary of State

2 His Excellency in Council takes this opportunity of impressing on Local Bodies who desire to apply for sterling loans, and on the Local Governments who have to forward the applications, the necessity of conducting such transactions with all possible despatch in order to ensure that the loans are placed on the market to the best advantage In a recent instance a sterling loan was raised on terms which were needlessly unfavourable, partly because the original understanding with the promoters was not sufficiently clear, but mainly on account of great delay in putting the proposals before the Government of India It is essential to the success of this class of borrowing that the negotiations should be perfectly definite on all important points, and that the local authority should take the Government of India, through the Local Government, into its confidence on the earliest possible occasion

ORDERED that this Resolution be published in the *Gazette of India* for general information

(2) The landlord shall, in the absence of sufficient reason to the contrary, allow the registration of all such transfers

(3) Whenever any such transfer is registered in the office of the landlord, he shall be entitled to levy a registration-fee of the following amount, namely —

(a) when rent is payable in respect of the tenure or portion—a fee of two *per centum* on the annual rent thereof provided that no such fee shall be less than one rupee or more than one hundred rupees, and

(b) when rent is not payable in respect of the tenure or portion—a fee of two rupees

(4) If an application for the registration of any transfer of a tenure or portion thereof under sub section (1) is not made within a period of one year from the date of the transfer, and if the registration fee authorized by sub section (3) is not paid or tendered within that period, the transferee or his successor in title shall not be entitled to recover, at any time after the expiry of the said period, by suit or other proceeding, any rent which may have become due to him, as the owner of such tenure or portion, between the date of the transfer and the date of the application for registration

(5) Nothing in this section shall—

(i) validate a transfer of any tenure or portion thereof which, by the terms upon which it is held, or by any law or local custom, is not transferable, or

(ii) affect the right of the landlord to resume a resumable tenure

Procedure on refusal of landlord to allow registration of transfer of tenure

12 If any landlord refuses to allow the registration of any such transfer as is mentioned in section 11, the transferee or his successor in title may make application to the Deputy Commissioner, and the Deputy Commissioner shall thereupon, after causing notice to be served on the landlord, make such inquiry as he considers necessary, and, if no sufficient grounds are shown for the refusal, shall pass an order declaring that the transfer shall be deemed to be registered

Division of tenure or distribution of rent

(*2*) Nothing in clause (*a*) of sub-section (*1*) shall confer on any grantee of a resumable tenure, or any of his successors, any right over minerals which he does not otherwise possess

Saving of rights of landlord

15 The mere registration of a transfer under section 11, or the mere receipt of a registration-fee thereunder, or the passing of an order by the Deputy Commissioner under section 12, shall not be deemed to imply a consent to, or permission to make, the transfer, within the meaning of section 14 and the landlord shall not be bound by the terms or conditions of any such transfer

CHAPTER IV

OCCUPANCY RAIYATS

General

Continuance of existing occupancy rights

16 Every raiyat who, immediately before the commencement of this Act, has, by the operation of any enactment, or by local custom or usage or otherwise, a right of occupancy in any land, shall, when this Act comes into force, have a right of occupancy in that land notwithstanding the fact that he may not have cultivated or held the land for a period of twelve years

Definition of "settled raiyat"

17 (*1*) Every person who, for a period of twelve years, whether wholly or partly before or after the commencement of this Act, has continuously held as a raiyat land situate in any village, whether under a lease or otherwise, shall be deemed to have become, on the expiration of that period, a settled raiyat of that village

(*2*) A person shall be deemed, for the purposes of this section, to have continuously held land in a village notwithstanding that the particular land held by him has been different at different times

(*3*) A person shall be deemed, for the purposes of this section, to have held as a raiyat any land held as a raiyat by a person whose heir he is

(*4*) Land held by two or more co-sharers as a raiyati holding shall be deemed, for the purposes of this section, to have been held as a raiyat by each such co-sharer

(*5*) A person shall continue to be a settled raiyat of a village as long as he holds any land as a raiyat in that village and for three years thereafter

(*6*) If a raiyat recovers possession of land under section 71, or by suit, he shall be deemed to have continued to be a settled raiyat notwithstanding his having been out of possession more than three years

(*Sections 18—20*)

(7) If, in any suit or proceeding, it is proved or admitted that a person holds any land as a raiyat, it shall, as between him and the landlord under whom he holds the land, be presumed, for the purposes of this section, until the contrary is proved or admitted, that he has for twelve years continuously held that land or some part of it as a raiyat

Bhuinhars and Mundari khunt kattidars to be settled raiyats in certain cases.

18 The following classes of persons shall be deemed to be settled raiyats for the purposes of this Act, in regard to the land in their villages which they cultivate as raiyats (other than their own Bhuinhari or Mundari khunt kattidari land, and other than landlords' privileged lands as defined in section 118), and the provisions of sub-sections (3) to (6) of section 17 shall apply to such persons as if they were raiyats, namely —

(a) where any land in a village, other than land known as manjhihas or bethkheta, is entered in any register prepared and confirmed under the Chota Nagpur Tenures Act, 1869,—all members of any Bhuinhari family who hold, and have for twelve years continuously held, land in such village, and

Ben Act II of 1869

(b) where any village contains land not forming part of a Mundari khunt-kattidari tenancy, and an entry of Mundari khunt-kattidari tenancies or of Mundari khunt kattidars in such village has been made in any record of rights as finally published under this Act or under any law in force before the commencement of this Act—all male members of any Mundari khunt kattidari family who hold, and have for twelve years continuously held, land in such village

Settled raiyats to have occupancy rights

19 Every person who is a settled raiyat of a village within the meaning of section 17 or section 18 shall have a right of occupancy in all land (other than landlords' privileged lands as defined in section 118) for the time being held by him as a raiyat in that village

Effect of acquisition of occupancy right by landlord.

20 (1) When the immediate landlord of an occupancy holding is a proprietor or a permanent tenure holder, and the entire interest of the landlord and the raiyat in the holding become united in the same person by transfer, succession or otherwise, such person shall not retain a right of occupancy in the holding, but shall hold the same as a proprietor or permanent tenure-holder, as the case may be, but nothing in this sub-section shall prejudicially affect the rights of any third person

(2) If an occupancy-right in land is transferred to a person jointly interested in the land as proprietor or permanent tenure holder, he shall be entitled to hold the land subject to the payment to his co-proprietors or joint permanent tenure-holders of the shares of the rent which may be from time to time payable to them, and, if such transferee sub lets the land to a third person, such third person shall be deemed to be a tenure holder or a raiyat, as the case may be, in respect of the land

Illustration —*A* a co-sharer landlord purchases the occupancy holding of a raiyat *X* *A* is entitled himself to hold the land on payment to his co sharers of the shares of the rent payable to them in respect of the holding *A* sub lets the land to *Y*, who takes it for the purpose of establishing tenants on it, *Y* becomes a tenure holder in respect of the land Or *A* sub lets it to *Z* who takes it for the purpose of cultivating it himself, *Z* becomes a raiyat in respect of the land

(3) A person interested in any estate, tenure, village or land, whether solely or jointly with others, as a temporary tenure holder, ijaradar or farmer of rents or as a mortgagee in possession, shall not, during the period of his lease or mortgage, acquire by purchase or otherwise a right of occupancy in any land comprised in his lease or mortgage

Provided that nothing in this sub section shall prohibit the acquisition of occupancy rights by any village-headman (whether known as pradhan or manjhi or otherwise) who by local custom or usage has a right to acquire the same

Explanation —A person having a right of occupancy in land does not lose it by subsequently becoming jointly interested in the land as proprietor or permanent tenure-holder, or by subsequently holding the land in ijara or farm

(*Sections 21—27*)

Incidents of occupancy right

Rights of occupancy raiyat in respect of use of land

21 When a raiyat has a right of occupancy in respect of any land, he may use the land—

(*a*) in any manner which is authorised by local custom or usage, or

(*b*) irrespective of any local custom or usage, in any manner which does not materially impair the value of the land or render it unfit for the purposes of the tenancy

Protection of occupancy raiyat from eviction except on specified grounds

22 An occupancy raiyat shall not be ejected by his landlord from his holding, except in execution of a decree for ejectment passed on the ground—

(*a*) that he has used the land comprised in his holding in a manner which is not authorized by section 21, or

(*b*) that he has broken a condition, consistent with the provisions of this Act, on breach of which he is, under the terms of a contract between himself and his landlord, liable to be ejected

Devolution of occupancy right on death

23 If a raiyat dies intestate in respect of a right of occupancy, it shall, subject to any local custom to the contrary, descend in the same manner as other immovable property

Provided that in any case in which, under the law of inheritance to which the raiyat is subject, his other property goes to the Crown, his right of occupancy shall be extinguished

Obligation of occupancy raiyat to pay rent

24 An occupancy raiyat shall pay rent for his holding at a fair and equitable rate

Enhancement of rent

Presumption that rent of occupancy raiyat is fair and equitable

25 The rent for the time being payable by an occupancy-raiyat shall be presumed to be fair and equitable until the contrary is proved

Confirmation of rents enhanced prior to commencement of this Act

26 When the rent of an occupancy-raiyat whose rent is liable to enhancement has been enhanced before the commencement of this Act, otherwise than under section 24 of the Chota Nagpur Landlord and Tenant Procedure Act, such enhanced rent shall be deemed to be lawfully payable—

Ben Act I of 1879

(*a*) if it has been actually paid continuously for seven years before the commencement of this Act, and

(*b*) if it is not proved to be unfair and inequitable

Provided that, where the rent lawfully payable by an occupancy-raiyat for his holding has been made an issue in any suit for arrears of rent, and the Court has arrived at a finding on that issue, the rent so found shall be deemed to be lawfully payable by the raiyat for the holding

Methods in which rent of occupancy raiyat may be enhanced

27 (*1*) From and after the commencement of this Act,—

(*a*) in any area for which a record-of rights has not been prepared and finally published under this Act or under any law in force before the commencement of this Act, or for which an order has not been issued under this Act or under any law in force before the commencement of this Act for the preparation of such a record, the money-rent of an occupancy raiyat whose rent is liable to enhancement may be enhanced only by order of the Deputy Commissioner passed under section 29, and

(Sections 28, 29)

(b) in any area for which a record of rights has been prepared and finally published as aforesaid, or for which an order has been issued as aforesaid for the preparation of such a record, the money rent of an occupancy-raiyat whose rent is liable to enhancement may be enhanced only,—

(i) in cases referred to in section 62, section 94 or section 99, by order of the Deputy Commissioner passed under section 29, and

(ii) in other cases, by order of a Revenue officer passed under Chapter XII

(2) No enhancement of such rent made after the commencement of this Act in any manner other than that referred to in clause (a) or clause (b), as the case may be, whether by private contract or otherwise, shall for any reason be recognized or given effect to in any suit or proceeding in any Court

Contents of application to Deputy Commissioner for enhancement

28 (1) Every application to the Deputy Commissioner for the enhancement of the rent of an occupancy holding shall specify —

(a) such particulars as may be prescribed regarding the area, situation, local names, quality and boundaries of the parcels of land constituting the holding,

(b) the rates of rent (if any) payable by the raiyat for the different classes of land constituting the holding, and the yearly rent payable for the holding at the date of the application,

(c) the rates (if any) generally prevailing in the village for corresponding classes of land,

(d) the date (as nearly as it can be ascertained) when the rates of rent generally prevailing were last adjusted in the village,

(e) the rates which the applicant desires to claim, and

(f) the grounds on which the applicant considers that he is entitled to the enhancement claimed

(2) Sections 146 to 149 shall apply to every application made under this section

Procedure on receipt of such application

29 (1) When any such application has been received, the Deputy Commissioner—

(a) shall forthwith give notice of the contents thereof to the raiyat, and

(b) may, if he thinks fit, order a measurement of the land, and

(c) may, upon consideration of all the circumstances set forth in the application, and after hearing any objection advanced by the raiyat, by order, fix such enhanced rent, or otherwise vary the rent for the said land, as to him may seem fair and reasonable

(Sections 30, 31)

Provided that no enhancement shall be ordered except on one or more of the following grounds, namely,—

(*i*) that the rate of rent paid by the raiyat is below the prevailing rate paid by occupancy-raiyats for land of similar quality and with similar advantages,

(*ii*) that there has been a rise in the average local prices of staple food crops during the currency of the present rent,

(*iii*) that the productive powers of the land held by the raiyat have been increased by an improvement effected during the currency of the present rent, otherwise than by the agency or at the expense of the raiyat

Provided also that no enhancement shall be ordered which is, under the circumstances of the case, unfair or inequitable

Provided, further, that all enhancements shall be limited in the prescribed manner (if any)

(*2*) The rent as fixed or varied under sub-section (*1*) shall be payable by the said raiyat from the commencement of the agricultural year following the year in which the order is passed, and may be recovered in any suit instituted against him for arrears of rent

(*3*) Nothing in this section shall bar the right of a raiyat to claim at any time under section 34 a reduction of the rent previously paid by him

30 Where the Deputy Commissioner considers that the immediate enforcement of the full enhancement ordered under section 29 is likely to be attended with hardship, he may direct that the enhancement shall be gradual, that is to say, that the rent shall increase yearly by degrees, for any number of years not exceeding five, until the limit of the full enhancement has been reached

Increase of Rent in respect of Excess Area

31 (*1*) Where land is held by an occupancy raiyat in excess of the area for which rent has previously been paid by him, no increase shall be made to the rent payable by him except by order of a Revenue officer passed under Chapter XII or by order of the Deputy Commissioner passed on an application made to him by the landlord

(*2*) Every such application shall specify—

(*a*) the yearly rent payable by the raiyat at the date of the application,

(*b*) the area and description of the land for which the said rent is payable,

(*c*) the proceedings (if any) by which the said rent was fixed,

(*e*) the date (as nearly as it can be ascertained) when the said general rate was last adjusted in the village,

(*Sections 32—34*)

(*g*) the amount of the said increase,

(*h*) the manner in which the said increase has been, or should be, assessed, and

(*j*) any other prescribed particulars

(*3*) If a survey and record-of-rights have been made under this Act, or under any other law in force before the commencement of this Act, in respect of any land referred to in clause (*b*) or clause (*f*) of sub-section (*2*), the "area and description" required by those clauses, respectively, shall be specified by stating the plot number, area and class of each field included in the land, as shown by such survey and record

(*4*) Sections 146 to 149 shall apply to every application made under this section

Procedure on receipt of such application

32 (*1*) When any such application has been received, the Deputy Commissioner—

(*a*) shall forthwith give notice of the contents thereof to the raiyat, and

(*b*) shall refer to the entry (if any) relating to the tenancy in the record-of rights prepared under this Act or any other law for the time being in force, and

(*c*) may, if he thinks fit, order a measurement of the land held by the raiyat, and

(*d*) may, upon consideration of all the circumstances set forth in the application, and after hearing any objection advanced by the raiyat and making such further inquiry as the Deputy Commissioner may think necessary, order such an increase, whether progressive or otherwise, as he may consider to be fair and reasonable

Provided that, if the landlord proves that, at the time when the measurement on which the claim is based was made, there existed, in the estate or tenure or part thereof in which the holding is situate, a practice of measuring land before settling rents, the Deputy Commissioner may presume that the area of the holding as entered in any lease or counterpart engagement or (where there is an entry of area in a counterfoil receipt corresponding to the entry in the rent roll) in the rent-roll relating to the holding was so entered after measurement

Provided also that an increase of rent shall not be ordered where it would contravene any local custom or usage prohibiting an increase of rent in respect of the increase in area of a holding

(*2*) When any increase has been so ordered, it shall be payable from the commencement of the agricultural year following that in which the order is passed, and may be recovered from the raiyat in any suit instituted against him for arrears of rent

Savings.

33 Nothing in sections 31 and 32 shall prohibit a landlord from realizing—

(*a*) increased rents from a raiyat for separate parcels of land settled with him in any manner authorized by law, or

Reduction of Rent

Application to Deputy Commissioner for reduction of rent.

(*2*) Every such application shall specify—

(*a*) the yearly rent payable by the raiyat at the date of the application,

(*b*) the area and description of the land for which the said rent is payable,

(*Sections 35, 36*)

(*g*) the grounds on which such reduction is claimed, and

(*h*) any other prescribed particulars

(*3*) Sections 146 to 149 shall apply to every application made under this section

Procedure on receipt of such application

35 (*1*) When any such application has been received, the Deputy Commissioner—

(*a*) shall forthwith give notice of the contents thereof to the landlord, and

(*b*) may, if he thinks fit, order a measurement of the land, and

(*c*) may, upon consideration of all the circumstances set forth in the application, and after hearing any objection advanced by the landlord, by order, fix such reduced rent, or otherwise vary the rent for the said land, as to him may seem fair and reasonable

Provided that no reduction shall be ordered except on one or more of the following grounds, namely,—

(*i*) that the soil of the holding has, without the fault of the raiyat, become permanently deteriorated by a deposit of sand or other specific cause, sudden or gradual,

(*ii*) that there has been a fall, not due to a temporary cause, in the average local prices of staple food crops during the currency of the present rent,

(*iii*) that the land held by the raiyat is of less area than the area for which rent has previously been paid by him

(*2*) The rent as so fixed or varied shall be payable by the raiyat from the commencement of the agricultural year following the year in which the order is passed, and may be recovered in any suit instituted against him for arrears of rent

(*3*) Nothing in this section shall bar the right of the landlord to claim at any time an enhancement under section 29 of the rent of such raiyat

Bar to further enhancement or reduction of rent

Bar to further enhancement or reduction of rent where there is no record of rights

36 (*1*) When the rent of an occupancy holding in any area referred to in clause (*a*) of section 27 has been enhanced by order of the Deputy Commissioner passed under section 29, such rent shall not again be enhanced for a period of fifteen years, except—

(*a*) by order of the Deputy Commissioner, on the ground of a landlord's improvement, or

(*b*) by order of a Revenue-officer passed under Chapter XII

(*2*) When the rent of an occupancy holding in any such area has been reduced by order of the Deputy Commissioner under section 34, otherwise than on the ground specified in proviso (*iii*) to section 35, such rent shall not again be reduced for a period of fifteen years, except—

(*i*) by order of the Deputy Commissioner, on one of the grounds specified in provisoes (*i*) and (*iii*) to section 35, or

(*ii*) by order of a Revenue officer passed under Chapter XII

(*Sections 37—41*)

Provided as follows —

(a) subject to any written contract made at the time of the commencement of his tenancy, the rent payable by a raiyat having khunt-katti rights, for land in respect of which he has such rights, shall not be enhanced if his tenancy of such land was created more than twenty years before the commencement of this Act, and

(b) when an order is made for the enhancement of the rent payable, by a raiyat having khunt katti rights, for any land in respect of which he has such rights, the enhanced rent fixed by such order shall not exceed one-half of the rent payable by an occupancy-raiyat for land of a similar description and with similar advantages in the same village

38 Subject to any local custom or usage, a non-occupancy raiyat shall, when admitted to the occupation of land, become liable to pay such rent as may be agreed on between himself and his landlord at the time of his admission, and shall be entitled to a lease only at such rates and on such conditions as may be so agreed on

Effect of acquisition by landlord of the right of a non occupancy raiyat in his holding

Grounds on which non occupancy raiyat may be ejected

41 A non-occupancy-raiyat shall, subject to the provisions of this Act, be liable to ejectment on one or more of the following grounds, and not otherwise, namely —

(a) on the ground that he has failed to pay an arrear of rent,

(b) on the ground that he has used the land comprised in his holding in a manner which is not authorized by local custom or usage, or which materially impairs the value of the land or renders it unfit for the purposes of the tenancy,

(c) on the ground that he has broken a condition, consistent with this Act, on breach of which he is, under the terms of a contract between himself and his landlord, liable to be ejected,

(d) where he has been admitted to occupation of the land under a registered lease, on the ground that the term of the lease has expired,

Prohibition against new prædial conditions.

101 From and after the commencement of this Act,—

(a) no tenancy shall be created with any prædial condition attached, other than rent free tenancies with the sole condition of rendering personal service, and

(b) no new prædial condition shall be imposed on any tenancy in existence at the time of such commencement

Liability of tenant when original conditions of tenancy can not be ascertained

102 When the original conditions of a tenancy cannot be ascertained, the tenant shall not be liable to any prædial conditions other than or in excess of those to which, by local custom or usage, he, in common with the general body of the class to which he belongs in the village, tenure or estate in which the lands of the tenancy are situated, is liable

Provided that, in any case in which prædial conditions have been complied with by a tenant for a period of five years continuously, any Revenue officer acting under this Chapter may, when commuting such conditions under this Chapter, presume that the same have been complied with in accordance with local custom or usage or in accordance with an express or implied contract made at the commencement of the tenancy

Method of calculating present value of prædial condition

103 When, in any proceedings under this Act, it becomes necessary for a Court to calculate the value of any prædial condition, such value shall be taken to be its average value during the ten years immediately prior to the proceedings, or during any shorter period for which evidence may be available

Procedure in suit for rent and value of prædial conditions

104 When, in any suit for the recovery of rent, it is sought to recover the value of the prædial conditions appurtenant to a tenancy, an issue may be framed as to whether the value of the prædial conditions, when added to the rent payable in respect of the tenancy, exceeds a fair rent, and if it is found that the resulting amount exceeds a fair rent, the Court shall decree the rent and so much (if any) of the value of the prædial conditions as, together with the rent, will not exceed the sum which would, having regard to the special circumstances of the case, be a fair rent

Voluntary commutation of prædial conditions

105 (1) When any land is held subject to any prædial conditions the tenant or the landlord may apply in writing to a Revenue-officer for commutation of such conditions

(*Sections 106, 107*)

(*2*) The Revenue-officer shall thereupon cause a notice to be served on the landlord or the tenant, as the case may be, and shall fix a day for considering the application, and on such day, or any day thereafter to which the hearing may be adjourned, shall proceed to inquire into the matter and to determine the amount which, in his judgment, is fairly and equitably payable in commutation of such conditions

(*3*) In calculating the said amount, the Revenue officer shall have regard only to the conditions to which the tenant is liable in accordance with local custom or usage or with any contract made when the tenancy commenced, and to the money value of such conditions at the time of making such calculation, and shall follow the procedure provided in section 103

Provided that the amount payable in commutation shall be so fixed that the total annual rent of the land, including such amount as aforesaid, shall not exceed the sum which would having regard to the special circumstances of the case, be a fair and reasonable rent if the land were not held subject to any prædial conditions

Power to order record of prædial conditions with or without commutation.

106 (*1*) The Local Government may, in any case in which it is, in its opinion, expedient so to do, make an order directing either—

(*Sections 108—111*)

108 (*1*) When the Revenue-officer has prepared a record under section 107, he shall cause a draft of the same to be locally published in the prescribed manner and for the prescribed period, and shall receive and consider any objections which may be made to any entry therein or to any omission therefrom during the period of publication

(*2*) When objections have been considered and disposed of in the prescribed manner, the record shall be finally framed and published in the prescribed manner

(*3*) Separate drafts or records may be published under sub-section (*1*) or sub section (*2*) for different local areas, estates, tenures or parts thereof

Appeal from orders of Revenue officers

109 An appeal shall lie, in the prescribed manner and to the prescribed officer, from any order of a Revenue officer under this Chapter

Revision by Commissioner or Board

110 The Commissioner or the Board may direct the revision of any record prepared under this Chapter, or any portion of such record, at any time within two years from the date of the final publication of the record, but not so as to affect any decision from which an appeal has been preferred under section 109

Provided that no such direction shall be made until reasonable notice has been given to the parties concerned to appear and be heard in the matter

Procedure where survey and record of rights are being made

111 In every local area estate, tenure or part thereof, in which a survey is being made and a record-of rights is being prepared under this Act or under any law in force before the commencement of this Act,

(*2*) In calculating the cash value of such conditions, the Revenue-officer shall be guided by the provisions of section 105, sub section (*3*)

(*3*) The Revenue-officer shall enter in the *khatiyán* of each tenant the cash value of the prædial conditions (if any) to which such tenant is liable, as ascertained under clause (*1*)

(*4*) If any tenant is liable, by local custom or usage or by contract made when the tenancy commenced, to any prædial conditions other than those to which the general body of tenants are liable, or is not liable to all the prædial conditions to which the general body of tenants are liable, the Revenue officer shall also specify in the *khatiyán* the prædial conditions to which such tenant is liable

(*5*) The statement prepared under clause (*1*), and the entries in the *khatiyán*, shall be published in draft in the same manner and for the same period as the record of rights

(*6*) Objections as to entries or omissions in the statement or *khatiyán* relating to prædial conditions may be made under the same conditions as objections to entries in or omissions from the record-of rights, and shall be disposed of in the same manner as such objections

(*Sections 112—116*)

(7) After the disposal of objections, the said statement, and the entries in the *khatiyan* relating to prædial conditions, shall be finally published at the same time and in the same manner as the record-of-rights

(9) In all such suits the Revenue officer shall, subject to any rules made in this behalf under section 264, adopt the procedure laid down in Chapter XVI for the trial of suits

Decision of question as to whether a payment in kind is a prædial condition or a payment of rent in kind

113 Where, in any proceeding under this Chapter or under section 61, a question arises as to whether a payment in kind is a prædial condition or a payment of rent in kind, the Revenue officer acting under this Chapter, or the officer acting under section 61, as the case may be, shall, after such inquiry as he may consider necessary, decide whether in fact the payment is a prædial condition or not

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 23

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th October, 1908

No 13 of 1908

A Bill further to amend the Inland Steam-vessels Act, 1884, and the Indian Steamships Act, 1884

WHEREAS it is expedient further to amend the Inland Steam-vessels Act 1884, and the Indian Steamships Act, 1884, It is hereby enacted as follows

Short title

1 This Act may be called the Indian Steamships Law Amendment Act, 1908

The Inland Steam vessels Act, 1884

Insertion of new section 68A in Act VI, 1884

2 After section 68 of the Inland Steam vessels Act, 1884, the following shall be inserted, namely —

Application of Act to vessels propelled by electricity or mechanical power

"68A The provisions of this Act shall apply to vessels propelled by electricity or other mechanical power, with such modifications as the Governor General in Council may prescribe for the purpose of adaptation "

The Indian Steamships Act, 1884

Substitution of new section 4, Act VII, 1884

3 For section 4 of the Indian Steamships Act, 1884, the following shall be substituted, namely —

No steamship to carry passengers without a certificate of survey

"4 No steamship shall carry more than twelve passengers between places in British India or to or from any place in British India from or to any place out of British India, unless she has a certificate of survey under this Act in force and applicable to the voyage on which she is about to proceed, or the service on which she is about to be employed "

Substitution of new section 23 Act VII 1884

4 For section 23 of the said Act the following shall be substituted, namely —

Steamships with foreign certificates of survey or certificates of partial survey

"23 (1) When a steamship requires to be furnished with a certificate of survey under this Act and the Local Government is satisfied, by the production of a certificate of survey attested by a British Consular Officer at the port where the survey was made, that the ship has been officially surveyed at a foreign port, and that the requirements of this Act are proved by that survey to have been substantially complied with, the Local Government may, if it thinks fit, dispense with any further survey of the ship in respect of the requirements so complied with, and give a certificate which shall have the same effect as a certificate given after survey under this Act

Provided that this sub-section shall not apply in the case of a foreign steamship to an official survey at any foreign port with respect to which His Majesty has by Order in Council directed that section 363 of the Merchant Shipping Act, 1894, shall not apply

(2) When the Local Government has, by notification in the local official Gazette, declared that it is satisfied that an official survey at any foreign port specified in the declaration is such as to prove that the requirements of this Act have been sufficiently complied with, any person appointed by the Local Government, by name or as holding any office, may exercise the power to dispense with a survey and to give a certificate conferred on the Local Government by sub-section (1) in the case of any steamship furnished with a valid certificate of survey granted at such foreign port and duly attested by the British Consular Officer at that port

(3) The procedure prescribed in sub-section (1) shall be applicable in the case of steamships furnished with valid certificates of partial survey, including docking certificates, granted by the Board of Trade or any British Colonial Government, as if they were steamships furnished with like certificates of survey granted at foreign ports, subject to the modification that the powers of the Local Government under the said sub section may be exercised by any person appointed by the Local Government, by name or as holding any office, in this behalf"

5 After section 40 of the said Act the following shall be inserted, namely —

Insertion of new section 40 in same Act

"41 The provisions of this Act shall apply to ships propelled by electricity or other mechanical power, with such modifications as the Governor General in Council may prescribe for the purpose of adaptation"

Application of Act to ships propelled by electricity or mechanical power

[Cf 57 & 58 Vict., c. 60 743]

STATEMENT OF OBJECTS AND REASONS

THE object of the Bill is to make provision for the survey, and for the grant of certificates to engineers, of vessels propelled by agencies other than steam, to put British and foreign ships on a footing of equality in the matter of the carriage of passengers and the holding of certificates of survey under the Indian Steamships Act, 1884, to bring vessels partially surveyed in British ports into substantially the same position as those similarly surveyed in foreign ports, and to facilitate the exercise of the powers conferred by that Act in respect of the grant of certificates of survey to ships surveyed in foreign ports

Clauses 2 and 5, following section 743 of the Imperial Merchant Shipping Act, 1894 extend to vessels propelled by electricity or other mechanical power the provisions of the Inland Steam vessels Act, 1884, and the Indian Steamships Act, 1884, which at present apply only to vessels propelled by steam

Clause 3 places British and foreign steamers on the same footing in respect of the certificates of survey required when carrying more than twelve passengers This amendment of the law is in accordance with the provisions of section 13 of the Imperial Merchant Shipping Act, 1906

Clause 4 re enacts and makes important additions to section 23 of the Indian Steamships Act, 1884, which at present is limited to empowering Local Governments to accept certain certificates of survey granted after official survey in foreign ports

The new sub section (2) proposed by this clause adds a provision enabling Local Governments to delegate their powers under the section to specially appointed officers in the case of ships holding certificates of survey granted at foreign ports regarding which they have by notification declared that they are satisfied that official surveys at such ports are such as to prove that the requirements of the Act have been sufficiently complied with

Though the powers conferred by section 23 of the Act in respect of certificates granted at foreign ports cover certificates of partial survey and docking certificates granted at such ports there is no power under the Act to accept such certificates when granted by the Board of Trade or any British Colonial Government The new sub section (3) which is further proposed by this clause abolishes this inequality between vessels partially surveyed in British ports and those similarly surveyed in foreign ports by declaring that the procedure prescribed by section 23 of the Act for the latter vessels is applicable to the former vessels also

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th October, 1908

No 14 of 1908

A Bill further to amend the Indian Merchant Shipping Act, 1880

VII of 1880

WHEREAS it is expedient further to amend the Indian Merchant Shipping Act, 1880, It is hereby enacted as follows —

Short title and commencement

1 (*1*) This Act may be called the Indian Merchant Shipping (Amendment) Act, 190 , and

(*2*) Section 4 shall come into force on such date or dates as the Governor General in Council may by notification in the Gazette of India direct either generally for all foreign ships or specially for the ships belonging to any specified foreign countries The rest of this Act shall come into force on the first day of January 1909

VII of 1880

Amendment of section 3 Act VII 1880

2 (*1*) In section 3, clause (*b*), of the Indian Merchant Shipping Act, 1880, after the word "or" the words "to any sailing ship of less than one hundred and fifty tons register employed" shall be inserted

(*2*) To the same section the following shall be added, namely —

"The Governor General in Council may from time to time, by notification in the Gazette of India, exclude from or bring again within the operation of sections 33 to 43, inclusive, any class of steamships of less than one hundred and fifty tons register which are employed solely in plying coastwise between ports situate in India and Ceylon, and do not carry cargo"

Amendment of section 4 of same Act

3 In section 4 of the said Act, in the definition of "unsafe", after the word "intended" the following words shall be inserted, namely —

[57 & 58 Vict c 60, s 439]

"and a ship shall be deemed to be unsafe when so loaded as to submerge in smooth salt water the centre of the disc indicating the load line"

Substitution of new section 85 of same Act

4 For section 85 of the said Act the following shall be substituted, namely —

Application of provisions respecting overloading and deck and load lines to foreign ships

"85 The provisions of this Act for the prevention of the overloading and improper loading of British ships and for the marking of deck and load lines on British Indian and British ships shall, with the exception of sub sections (*2*) and (*3*) of section 35, apply to foreign ships also when in ports of British India, unless such foreign ships, if in ports of the United Kingdom, would be entitled to the benefit of a direction of His Majesty in Council under section 445 of the Merchant Shipping Act, 1894

57 & 58 Vict, c 60.

[6 Edw 7, c 48, s. 6]

Provided that nothing in this section shall apply to any foreign ship not bound to a port in British India which comes into any port in British India for any purpose other than the purpose of embarking or landing passengers or taking in or discharging cargo or taking in bunker coal

57 & 58 Vict., c. 60, s 462.]

Provided also that in the case of the detention of a foreign ship the application of the provisions of this Act shall be subject to the following modifications, namely —

(i) a copy of the order for the provisional detention of the ship shall be forthwith served on the consular officer for the country to which the ship belongs at or nearest to the port in which such ship is detained,

(ii) the consular officer, on the request of the owner or master of the ship, may require that the person appointed by the Local Government under section 8 to survey the ship shall be accompanied by such person as the consular officer may select, and in that case, if the surveyor and that person agree, the Local Government shall cause the ship to be detained or released accordingly, but if they differ, the Local Government may act as if the requisition had not been made, and the owner and master shall have the like appeal to a Court of Survey touching the report of the surveyor as is hereinbefore provided in the case of a British ship, and,

(iii) where the owner or master of the ship appeals to the Court of Survey, the consular officer, on his request, may appoint a competent person to be assessor in the case in lieu of the assessor who, if the ship were a British ship, would be appointed otherwise than by the Local Government"

STATEMENT OF OBJECTS AND REASONS

THE Bill proposes certain amendments in the Indian Merchant Shipping Act, 1880

Clause 2 withdraws the exemption from the provisions of Chapter II of the Act which is at present enjoyed by steamships of less than 150 tons register employed in plying coastwise between ports situate in India and Ceylon, but power is at the same time reserved to except from the deck and load line provisions in the Act any class of such steamships which do not carry cargo The object of this amendment is to bring the Indian law into line with that relating to coasting vessels of less than 80 tons register as recently enacted in the Imperial Merchant Shipping Act, 1906, section 7

Clause 3, following section 439 of the Imperial Merchant Shipping Act 1894, provides that the submersion of her disc shall be deemed to render a ship unsafe within the meaning of the Indian Act, and consequently liable to detention

Clause 4 is the most important clause in the Bill Following section 1 of the Imperial Merchant Shipping Act, 1906, it widens the scope of section 85 of the Indian Act, which at present only applies the provisions of that Act as to overloading to foreign ships, by making it also apply the provisions of that Act as to deck and load lines to such ships, except when they come into port under stress of weather, when they are exempted, as in the case of similar ships in the United Kingdom under section 6 of the Imperial Act It further applies the procedure prescribed by section 462 of the Imperial Merchant Shipping Act, 1894, for the detention of foreign ships to cases in which such ships are detained under the Indian Act

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th October, 1908

No 15 of 1908

A Bill to give legal sanction to a marriage ceremony common among the Sikhs called Anand

WHEREAS it is expedient to give legal sanction to a marriage ceremony common among the Sikhs called Anand, It is hereby enacted as follows —

Short title extent and commencement

1 (1) This Act may be called the Anand Marriage Act, 1908

(2) It extends to the whole of British India, and

(3) It shall come into force at once

Validity of marriages solemnized according to the Anand ceremony

2 All marriages and re-marriages duly solemnized according to the Sikh marriage ceremony called Anand shall be considered good and valid

Saving of certain marriages

3 Nothing in this Act shall apply to—

(*a*) any marriage which has been judicially declared to be null and void, or

(*b*) any marriage which may be contracted by such persons as are related to each other in any of the degrees of consanguinity or affinity prohibited among the Sikhs

---

STATEMENT OF OBJECTS AND REASONS

THE object of the Bill is to set at rest doubts which may be raised as to the validity of the marriage rite of the Sikhs called "Anand"

This form of marriage has long been practised among the Sikhs, but there are good reasons to believe that, in the absence of a validating enactment, doubts may be thrown upon it, and Sikhs may have to face great difficulties in the future, and incur heavy expenses on suits instituted in the Civil Courts It is also apprehended that, in the absence of such a law, some judicial officers may be uncertain as to the validity of this orthodox Sikh custom

It is desirable therefore that all doubts should be set at rest for the future, by passing this enactment, which merely validates an existing rite and involves no new principles

No 441 (*first publication*) —The following particulars, etc relative to the above, issued by the British Admiralty (No 1588 of 1908), are republished —

Subject —A station for the relief of shipwrecked Mariners has been established about 2½ miles inland from Rocky point, west coast of Tasmania
Position —Rocky point, lat 43° 00′ S, long 145° 30′ E
Description —The Relief-station is a framed structure, painted red plainly visible from seaward, a signal staff for signalling to passing vessels has been erected on Rocky point

A track has been cut from the signal staff on Rocky point to the Relief-station

From the Relief station, a track has been cut to the northward for a distance of about 8 miles to a point abreast of the wreck of the *Acacia*, and to the southward there is a track as far as the north head of Port Davey These tracks follow the coast line, and are nowhere more than one mile distant from it, in 11 places junction tracks have been cut from the shore to the main track

At every quarter of a mile on the main track, iron index hands have been erected, pointing in the direction of the Relief-station and indicating the distance from it A raft has been constructed at the Giblin river, where the depth of water is too great to permit fording

In the building a sufficient supply of clothing, provisions, and cooking utensils has been placed, with all necessary directions, and Mariners wrecked on the coast in this vicinity will have no difficulty in finding their way to the Relief station, from whence by means of the signal station any passing vessel may be notified of their presence

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF MUNICIPALITIES IN BENGAL (EXCEPT CALCUTTA) DURING THE YEAR 1907 08

MUNICIPAL DEPARTMENT—MUNICIPAL

Darjeeling, the 31st October 1908

RESOLUTION No 1690—M

Resolution on the Reports from the Commissioners of Divisions on the working of Municipalities in Bengal (except Calcutta) during the year 1907 1908

The number of municipalities in the Province during the year fell from 128 to 127, in consequence of the abolition of the Ulubaria Municipality in the district of Howrah The creation of a new municipality at Khagaul was sanctioned with effect from October 1907, but it did not start operations during the year

2 *Collections* —The reports received show that there has been a falling off in the percentage of total collections on current demand from 97 1 in the year 1906 1907 to 95 78 in 1907 1908 The decrease is shared by the municipalities in the Burdwan, Chota Nagpur and Orissa Divisions It was most marked in the last named Division, where the percentage fell from 96 9 to 90 0 and where the result, though not explained by the local officers, was probably due to the prevailing scarcity The Presidency and Bhagalpur Divisions show a slight improvement in this respect, while the Patna Division again returns the very creditable percentage of 99 9 Ten municipalities, as compared with

34 in the previous year, collected cent per cent or more of their current demand, the highest percentage (103 6 being attained in the Kamarhati Municipality in the district of the 24 Parganas The lowest figure (75 1) is returned by Debhatta in the Khulna district The aggregate outstanding balance rose from Rs 1,62,910 to Rs 2,17,775, which amounts to 6 1 per cent of the current demand The Lieutenant Governor is disappointed to notice this falling off The system of granting bonuses to collecting sarkars for good collections, which had been tried with success in the Burdwan Division, has recently been extended to all other Divisions, and His Honour trusts that considerable improvement will be shown in this respect next year The percentage of total remissions on current demand fell from 3 5 to 2 68, the highest percentage again being returned from the Bhagalpur Division (5 0)

3 *Number of rate payers* —The total number of rate payers in municipalities rose from 411,451 to 416,576 The most noticeable increases occurred in Howrah, Bally and Baidyabati In the Patna Division the total number of rate payers decreased by 2,152 It is reported that in Chapra (1,086) and Darbhanga (752), where the decreases were largest, the names of rate-payers whose taxes were remitted in full were struck off from the demand register These large reductions seem to need looking into

4 *Results of elections held during the year* —General elections were held in Cossipore-Chitpur, Maniktala, Tollygunge, North Barrackpore, Nadia and Jessore The percentage of attendance of voters ranged from 60 6 to 38 4

5 *Attendance at meetings* —The total number of meetings held was 2,072, of which 126 were adjourned The municipalities of Cossipore Chitpur and Kalna again held the largest number of meetings viz , 48 and 56, respectively The Lieutenant Governor doubts whether it is either necessary or desirable to call meetings so frequently as this In Dumka, on the other hand, only 6 meetings were held, which is insufficient The Divisional Commissioners will be asked to look into these cases The percentage of attendance of Commissioners was practically the same as in the previous year, viz 55 per cent On the whole, attendance was fairly satisfactory, an average of more than one-half of the total number of Commissioners having attended in the case of nearly three fourths of the municipalities

6 *Assessment and taxation* —The rate on holdings was in force in 48 municipalities and in portions of 8 others, while the tax on persons was levied in 70 municipalities In Kushtia and Berhampore the rate on holdings has since been introduced in lieu of the tax on persons The triennial revision of assessment was due last year in the Arrah Municipality, but it was resolved to postpone proceedings in order to minimise the opposition of the rate payers to the Arrah drainage scheme, towards which each rate payer is being asked to contribute by instalments a sum equal to two years' taxation With regard to the proposal to introduce the rate on holdings generally in the Darbhanga Municipality, the District Magistrate reports that the municipality consists largely of rural areas, where the houses are liable to collapse in times of flood and to be destroyed by fire, and that consequently no change in the system of assessment is desirable The latrine rate was levied in 93 towns, a water rate in 13, and a lighting rate in 4

7 The average incidence of municipal taxation for the whole Province was Re 1-7 5, as compared with Re 1 5 11 in the preceding year The incidence ranged from Rs 9-14 per head in Darjeeling to annas 4-3 in Debhatta in the district of Khulna

8 *Revision of assessment* —In 84 Municipalities revision of assessment took place Substantial increases were obtained in the following towns —

Name of Municipality	Increase of revenue
	Rs
Howrah	2,21,814
Cossipore Chitpur	16,404
Darjeeling	9,577
Puri	5,381
Barh	3,601
Bhatpara	2,988
Patna	2,948

The revision of assessment in Howrah aroused considerable opposition and several memorials were addressed to Government complaining of the manner in which it had been carried out The objections raised were carefully considered by the Lieutenant Governor, and, in rejecting them, His Honour came to the conclusion that credit was due to the Chairman and the Municipal Committee for the manner in which the difficult task had been performed In Berhampore the financial condition of which is not satisfactory, the tax on holdings was introduced, and a general revision of assessment was made on the valuation principle An increase in income was obtained, but this was largely reduced by the Appeal Committee Having regard to the unsatisfactory proceedings of the Commissioners in this matter, a fresh assessment has been ordered by Government under section 111A of the Act, under threat of supersession The Lieutenant Governor is glad to find from the Commissioner's report that the Municipal Commissioners appear disposed cordially to carry out the order

9 *Fresh imposts levied during the year* —In Patna the keepers of hackney carriages were for the first time required to take out licenses for their stables and in Chapra the provisions of the Hackney Carriage Act were brought into operation Fees under Part IX of the Act (latrine fees) were levied for the first time in the Vishnupur and Murshidabad Municipalities Fees under section 187 of the Act, for the removal of the contents of cess pools, were for the first time levied at Bhadreswar

10 *Income and expenditure* —The total receipts of the municipalities, including the opening balances, amounted to Rs 67,96,298, against Rs 61,91,760 in 1906 07 The increase occurred chiefly under the following heads —municipal rates and taxes (Rs 2,27,054), grants and contributions Rs 1,41,722), extraordinary and debt (Rs 1,09,636), and opening balance (Rs 1,19,034) The total disbursements amounted to Rs 54,48,563, against Rs 51,41,558 in the previous year

11 *Closing balances of municipalities* —The closing balances aggregated Rs 13,47,735, against Rs 10,50,202 in 1906 1907 The bulk of this increase represents the unspent balances of the loans and contributions received from Government The heavy balance in Bhagalpur, viz, Rs 1,52,149, is explained as due to Rs 1,14,000 being earmarked for expenditure on the improvement of the water works out of a special Government grant of Rs 91,000 and a loan of Rs 85,500

12 *Income Rs 57,47,683* —The total revenue receipts of the municipalities during the year, excluding the receipts under "Extraordinary and Debt," amounted to Rs 46,22,166, against Rs 42,46,298 in 1906 1907 The bulk of the increase occurred in the Burdwan and Bhagalpur Divisions

13 *Octroi tax Rs 22,344* —This tax is levied only in the Sambalpur Municipality, where it gave a net income of Rs 22,344, against Rs 29,276 in the preceding year

14 *Tax on houses and lands Rs 13,37,442)* —The total increase under this head over the receipts of the previous year was Rs 98,643 Of this sum, Howrah contributed no less than Rs 63,161

15 The receipts under *Tax on animals and vehicles* and *Tolls on roads and ferries* varied but little from the figures of the preceding year The Patna and Chapra ferries had to be settled at reduced rents, resulting in a decrease of revenue by Rs 1,986 and Rs 489, respectively In Revelganj the income declined by Rs 4,119, owing partly to the demand for 1907 1908 having been paid in advance in the preceding year and partly to large arrears having been realized in that year The receipts from the Azimganj Berhampore ferry also declined owing to continued drought and also to the opening of the Ranaghat Murshidabad railway line, which diverted traffic from the ferry On the other hand, there was an increase of Rs 2,968 under this head in Muzaffarpur, effected by reducing the cost of maintenance Smaller increases occurred in a few other municipalities

16 *Water rate (Rs 3,65,656)* —This tax was in force in 13 municipalities, as in the two previous years, and yielded an increased revenue of Rs 53,569 The largest increase occurred in Howrah (Rs 49,891), and was due to the revision of assessment There were also increases in Berhampore (Rs 2,338),

Burdwan (Rs 1,715) and Cossipore Chitpur (Rs 1,00?) Arrah showed a decline of Rs 2,929, which was, however, nominal, since the receipts of the previous year included a heavy collection of arrear demand

17 *Lighting rate* (*Rs 1,48,672*) —This rate is levied only in four municipalities, viz Howrah, Darjeeling, Cossipore Chitpur, and Maniktala The aggregate increase in the receipts over those of the previous year amounted to Rs 41,010 of which Rs 20,114 were contributed by Howrah, Rs 18,634 by the Municipalities of Cossipore Chitpur and Maniktala, and Rs 10,262 by Darjeeling The increase in Darjeeling is attributed to a rapid increase in the number of lighting connections throughout the town, and also to the assessment of new buildings The increase in Howrah is due to revision of assessment In Cossipore Chitpur the increase is attributed to the rate having been imposed during the year throughout the entire area of the municipality, with the exception of a small portion of Ward No III

18 *Conservancy, including scavenging and latrine rate* (*Rs 8,02,987*)—The revenue under this head showed an improvement of Rs 55,101 Of this, Rs 39,188 were contributed by the Burdwan and Rs 12,675 by the Presidency Division Howrah shows a marked increase of Rs 36,815. In Murshidabad the latrine tax was introduced for the first time, and yielded an income of Rs 5,265 In last year's Resolution the Divisional Commissioners were asked to instruct municipalities to pay greater attention to the question of raising incomes from trenching grounds and the disposal of street refuse The Lieutenant Governor regrets to find that the subject has not been noticed by all Commissioners in the reports now received His Honour trusts, however, that it is receiving attention

19 *Grants from Provincial and Local Funds and contributions from private individuals* (*Rs 6,09,191*) —The income under this head shows an increase of Rs 1,41,722 The grants from Government amounted to Rs 3,55,970, and from Local Funds to Rs 1,29,077, while Rs 1,24,144 were contributed by private persons The instances of private liberality brought to notice in the Commissioners' reports have already been acknowledged by the Lieutenant Governor in a separate Resolution

20 The receipts from the *Tax on professions and trades* and the *Tax on persons according to their circumstances and property* were Rs 59,823 and Rs 3,78,072, against Rs 57,58? and Rs 3,88,6?3, respectively, in the previous year The slight fluctuations call for no comment

21 *Expenditure—Office and collection establishment* (*Rs 3,87,065*) —The percentage of expenditure under this head on total ordinary expenditure has fallen from 9 4 in 1906 1907 to 8 9 in the past year This decrease is chiefly due to the remission by Government of the audit and banking fees hitherto charged to municipalities

22 *Prevention of fire* (*Rs 27,992*) —As usual, the bulk of this expenditure was incurred by the municipalities of Cossipore Chitpur (Rs 12,302), Howrah (Rs 9,909), Garden Reach (Rs 2,019) and Maniktala (Rs 1,211), all of which contributed towards the maintenance of the Calcutta Fire Brigade establishment In Darjeeling Rs 1,747 were spent on the local fire-brigade

23 *Lighting* (*Rs 2,45,336*) —The total expenditure under this head rose by Rs 8,073 The largest increases occurred in Howrah (Rs 14,305) and Cossipore Chitpur (Rs 12,240) In Darjeeling the charges fell from Rs 45,107 to Rs 20,355, or by more than half This decrease should have been explained

24 *Water supply* (*Rs 3,39,609*) —Under this head the expenditure on capital outlay fell from Rs 1,52,046 to Rs 1,13,054, while that on Establishment, Repairs, etc, rose from Rs 1,93,491 to Rs 2,26,555 The increase in the maintenance charges occurred chiefly in Howrah, Berhampore, Burdwan and Cossipore Chitpur In Howrah and Burdwan it is attributed to the high rates of coal and to charges on account of grain compensation allowance paid to the employés There was a marked increase in capital expenditure at Bhagalpur (Rs 62,188), due to the partial execution of a comprehensive scheme for the improvement of the water works installation The detailed plans and estimates for the Monghyr water-works scheme were completed, and the scheme has, after considerable delay, been recently accepted by the Municipal Commissioners. Detailed estimates and plans for the proposed

water-works at Gaya are now under preparation by the Sanitary Engineer. At Khulna the improved water-works scheme was completed In Howrah there were numerous complaints regarding the short supply during the hot weather, and the questions of the efficiency of the pumping plant and the improvement of the main are engaging the attention of the municipality A scheme for the supply of filtered water to the Serampore Municipality is also under consideration The Commissioners of the Hooghly-Chinsura Municipality have had a sketch project prepared for the installation of water-works in that town, for which considerable subscriptions have been raised locally The Lieutenant-Governor has also consented to make a grant from Provincial revenues towards the scheme A detailed scheme for increasing the water-supply at Kurseong has been completed, and the question of financing it is said to be under the consideration of the Municipal Commissioners.

25 The Lieutenant-Governor is pleased to learn from the Sanitary Board that the several municipal water-works installations in the Province were, on the whole, satisfactorily managed during the year In this respect the Howrah works again stand easily first Though the cost of supply per thousand gallons rose slightly to 1 4 annas, it was still by far the lowest in the Province In Arrah there was an appreciable reduction in the cost of working from 5 1 to 4 7 annas The management of the Berhampore works was reported to have been fairly satisfactory The Municipalities of Cossipore-Chitpur and Maniktala received filtered water at the rate of 7 3 and 3·2 gallons per head per day, respectively, from the Calcutta Corporation The supply, however, from the same source to the Tollygunge, South Suburban and Garden Reach Municipalities was still much in defect

26 *Drainage (Rs 2,68,822)* —In Howrah the southern foreshore scheme has been nearly completed, and Government has accorded sanction to the execution of the work on blocks XIV and XVI of the northern foreshore scheme Detailed plans and estimates have been submitted for the drainage of the Burdwan town, but the question of financing the scheme has not yet been settled by the Municipal Commissioners A scheme, estimated to cost Rs 77,433, has been prepared for the Katwa Municipality The Monghyr scheme has now been completed, and is before the Sanitary Engineer Two surveyors have been employed to prepare the Bhagalpur drainage scheme, and the Chairman hopes that it may be possible to start work in the year 1909 1910. The Titaghar scheme did not make satisfactory progress during the year, owing to the stoppage of work by the contractors The Cossipore-Chitpur and Maniktala schemes are still under revision. Six schemes, viz., (1) Garulia, (2) Baruipur, (3) Barasat, (4) Basirhat, (5) Budge-Budge and (6) the northern section of the Baranagar scheme, have been sanctioned by Government The execution of the southern section of the Baranagar scheme has been postponed in consequence of the strong objections raised by certain residents of the locality to the proposed outfall into the Hooghly Work was commenced on the Puri scheme during the year.

27 *Conservancy, including road cleaning, road watering and latrines (Rs 13,40,418)* —Among individual municipalities, the largest increases occurred in Howrah (Rs 26,088) and Cossipore-Chitpur (Rs 17,603) The Lieutenant Governor desires that the Divisional Commissioners will not content themselves with a bare statement of the figures of expenditure under this head, but will note whether the actual work of conservancy has been satisfactorily and efficiently performed by the municipalities in their Divisions Any particular case of neglect in this respect should be brought to notice

28 *Hospitals and Dispensaries (Rs 5,18,773)* —Deducting the contributions from Government and other sources, the interest on investments for medical purposes and the income from "Fees and revenues from medical institutions," the total net expenditure on hospitals from municipal revenues proper rose from Rs 1,64 895 in 1906 1907 to Rs. 2,10,993 in 1907-1908 His Honour is glad to observe from the reports that increased attention appears to have been generally paid to the important subject of medical aid

29 *Plague charges (Rs 94,904)*.—There was a slight decrease under this head, which occurred in the Bhagalpur Division. The greater part of the expenditure was, as hitherto, incurred in the Patna Division (Rs. 60,149) The

charges did not fall wholly upon municipal funds, liberal grants having, as usual, been made from Provincial revenues

30 *Vaccination* —The total number of children available for vaccination during the year was 57,520, of whom 83'4 per cent were successfully vaccinated, as compared with a percentage of 87 3 in the preceding year The expenditure under this head shows a slight increase

31 *Markets and slaughter-houses (Rs 53,416)* —The reports disclose an increased activity under this head, especially in the Chota Nagpur Division

32 *Public works (Rs 7,71,941)* —The figures of expenditure on the maintenance of roads indicate that more attention was given to this matter during the year, especially in the Burdwan Division, where the increase in the charges on this account aggregated Rs 1,33,391 In Howrah Rs 1 00,000 were paid towards the cost of acquiring lands required for widening roads for a service of electric tramways Under this head also the Divisional reports fail to indicate the comparative success or failure achieved in this branch of their administration by the several municipalities The mere fact that a certain sum of money has been expended under this head does not enable Government to be satisfied that the actual maintenance of the municipal roads has been efficiently carried out

33 *Public Instruction (Rs 1,43,443)* —The outlay under this head shows a small increase of Rs 1,971, but the provincial percentage of expenditure on ordinary income is still below the prescribed figure (3 2) The local officers are requested to see that no municipality shirks its duty towards primary instruction Where insufficient contributions have been made without good reason, the Municipal Commissioners should be called upon to make increased provision

34 *Loans* —Thirty-six municipalities were in debt at the close of the year, and their total net indebtedness, after deducting the balance of the sinking fund investments, amounted to Rs 38,96,848 The loan liabilities of Howrah were Rs 20,90,363, of Darjeeling Rs 5,40,390, of Bhagalpur Rs 3,09,628 and of Patna Rs 2,54,452 Thirteen municipalities received loans during the year Howrah took Rs 1,10,000 for the construction of the south foreshore drainage, Bhagalpur Rs 85,500 for the improvement of its water-works, Cossipore-Chitpur Rs 61,000 for the enlarging of the trenching ground and the extension of gas lighting, and Puri Rs 50,000 towards the cost of the local drainage works

35 On the 31st March 1908 the total outstanding liabilities of the municipalities on account of unpaid bills and unfinished works amounted to Rs 2,38,505, against Rs 1,84,020 in 1906 1907, which represents 9 9 per cent of their total current demand In 13 municipalities, against 14 in the preceding year, the liabilities exceeded the closing balances, the worst case being that of Berhampore, as its liabilities were Rs 18,516 against a closing balance of Rs 4,325 The unsatisfactory financial condition of this municipality has compelled the Lieutenant Governor to issue a clear warning to the Commissioners All the municipalities indebted to Government paid the fixed instalments for the payment of their loans, except the South Suburban Municipality, which was unable to pay the instalments on its loans for water-supply, owing to its inability to levy the full amount of water-rate, as a sufficient supply of water was not available, it was alleged, from the Calcutta Municipal mains

36 *Audit of accounts and embezzlements* —Cases of embezzlement of municipal money were brought to light during the year in the Santipur, Asansol, Baidyabati, Patna and Muzaffarpur Municipalities They were all petty cases, but they serve to show the value of the Government audit

37 *Working of the Porters and Dandiwallas Act* —The Act continued to be enforced in the towns of Darjeeling and Kurseong While there were a few prosecutions, no licenses were cancelled

38 *Inspection* —In paragraph 40 of last year's Resolution, the Lieutenant-Governor desired that Divisional Commissioners should state in their annual reports whether the District Magistrates had given adequate attention to the inspection of the work of the municipalities within their districts The subject has been noticed in the reports of the Burdwan, Presidency, Patna

and Chota Nagpur Divisions, but the Commissioners of Bhagalpur and Orissa have failed to observe the instructions

39. *General*—The Commissioner of Burdwan reports that, on the whole, very good work was done by the municipalities in his Division He specially refers to the progress made by the Howrah Municipality, and to the valuable services rendered by the Chairman, Mr Forrest, and the Vice Chairman, Babu Mahendra Nath Bhattacharji, and the Engineer, Mr. Hale. He also names the following gentlemen as having done specially good work Mr W T Nash and Babu Jagabandhu Mitra, Municipal Commissioners of Burdwan, Babu Gopal Chandra Chakravarti, Chairman, and Babu Protap Chandra Ghosh, Vice Chairman, of the Suri Municipality, Mr W C Lydiard, late Chairman of the Bankura Municipality, Babu Umesh Chandra Chaudhury, Chairman, Vishnupur, Babu Rakhal Mohan Banerjee, Chairman, Sonamukhi, Babu Bepin Behari Mitra, Chairman, and Babu Mahendra Chandra Mitra, Commissioner of the Hooghly Chinsura Municipality, and the Hon'ble Rai Kishori Lal Goswami Bahadur, Chairman of the Serampore Municipality On the other hand, it is reported that the administration of the Uttarpara Municipality has been extremely unsatisfactory owing to the existence of party factions and to an attempt having been made by one of the Commissioners to obtain control of municipal affairs without incurring any responsibility At Baidyabati and Bhadreswar, also, party feeling appears to have interfered to a greater or less extent with municipal administration The Magistrate of Burdwan has commented unfavourably upon the administration of the Burdwan Municipality in regard to the licensing of meat shops The action of the Municipal Commissioners in this matter has been the subject of consideration for some time past, and the question of superseding them is now before Government

40 The Commissioner of the Presidency Division has made special mention of the following gentlemen for the good work done by them Babu Kripa Nath Dutt, Chairman of the Cossipore Chitpur Municipality, Mr G Robertson, Chairman, Naihati, Mr W Webber, Commissioner, Budge Budge, Mr A Craig, Chairman, Kamarhati, Babu Durga Das Roy Chowdhury, Chairman, Baruipur, Babu Nogendra Nath Pal Chowdhury, Chairman, Ranaghat, Raja Ranajit Sinha Bahadur, Chairman, Murshidabad, and Mr S Campbell, Chairman of the Jangipur Municipality In the Patna Division special mention has been made by the Magistrates concerned of the good work done by Rai Bahadur Sital Prasad, Vice Chairman, Gaya, Babu Sachchhitanand Sahay, Vice Chairman, Arrah, Babus Shama Charan Ghose, Ambica Charan Chatterji and Ashutosh Mukherji, Vice-Chairmen of the Chapra, Siwan and Revelganj Municipalities, Babu G. N Bose, Vice-Chairman, and Babus Upendra Nath Ganguli and Ramdhari Singh, Commissioners of the Motihari Municipality, Mr M H Khan, Vice-Chairman, Muzaffarpur, Babu Sarat Chandra Sen, Vice-Chairman, Darbhanga, and Mr C R Macdonald, Chairman of the Roserah Municipality. The Commissioner of Bhagalpur specially mentions Messrs T R Browne, A H Wathen and W H Thomson, Chairmen of the Jamalpur, Kurseong and Dumka Municipalities, and Messrs F A Moller, G W Scott, W Ahmed, and W E Pincombe, Vice Chairmen of the Darjeeling, Monghyr, Bhagalpur and Jamalpur Municipalities The Deputy Commissioner of Palamau specially mentions Babu J N Gupta, Vice-Chairman of the Daltonganj Municipality

41 The Lieutenant Governor's thanks are due to all the gentlemen named above, and to many others who, though not specially mentioned, have rendered useful service to the State in the performance of their honorary functions. Sir Andrew Fraser regrets to observe that the reports received from the Divisional Commissioners are not of very much interest, they are to too large an extent the mere record of statistics At the same time, His Honour recognises that the reports show that with a very few exceptions good work has been done and public spirit shown by the Municipal Committees in the Province

By order of the Lieutenant Governor of Bengal,

C. A OLDHAM,

Secretary to the Govt. of Bengal

REMARKS (against the 15 001 line): The discrepancy with the Accountant General's statement of Rs 303 for the repayment of the loan and of Rs 10 for the payment of interest is due to the fact that these amounts were paid in cheque in 1906 07 and shown in Form III for that year.

RESOLUTION ON THE CANAL REVENUE REPORTS FOR THE TRIENNIAL PERIOD ENDING 31ST MARCH 1908

No 4230 I A.

Government of Bengal

IRRIGATION DEPARTMENT.

ACCOUNTS

Dated Calcutta, the 4th November 1908

The Canal Revenue Reports for the triennial period ending 31st March 1908.

RESOLUTION

READ—

The Canal Revenue Reports for the triennial period ending 31st March 1908 and the Chief Engineer's Note on the same

The **Major Irrigation Works** are divided into two classes—

I —Productive Works
II —Protective Works

The Productive works comprise the Orissa, the Midnapore, the Hijili Tidal and the Sone Canals These works are all in operation The Protective works are the Tribeni Canal and the Dhaka Canal The former is still in progress of construction, while the latter has been practically completed and is in use The **Minor Works** for Navigation are the Calcutta and Eastern Canals, the Orissa Coast Canal, the Nadia Rivers, and the Gaighata and Baxi Khal, while the works of this class for irrigation are the Saran Canals, the Eden Canal and the Madhuban Canal

2 The Capital outlay on the Productive Major works in operation has been Rs 6,45,01,073 to the end of March 1908 The works now held by Government as a return for this outlay comprise in addition to the weirs across the rivers and other head works, 792¾ miles of main and branch canals, of which 493 miles provide for both Irrigation and Navigation, 270¾ miles provide for Irrigation only, and 29 miles provide only for Navigation There are in addition 2,674 miles of distributaries During the period under review 10¾ miles of branch canals for irrigation were opened, and there is a net increase of 22½ miles in the length of distributaries There has, however, been a decrease of 2¼ miles in the length of canals which provide for both irrigation and navigation

The outlay on the Capital account of the Protective works has been Rs 36,74,032 to the 31st March 1908, of which Rs 20,66,769 were spent in the period under review The designed length of the main canals is 79½ miles with 282 miles of distributaries The area irrigable will be roughly 127,500 acres The Dhaka Canal, a small work deriving its supply from the Lal Bakeya river in the Champaran district, has been opened from the year 1906-07

The progress on the Tribeni Canal, though rather better than in the previous period, has still been very slow The difficulties connected with this canal are well known, and it is not necessary to recapitulate them It was hoped that it might be possible to open this season (1908-09) the first 40 miles of this canal as far as the Masan river, but this could not be done partly because of certain alterations required to the head sluice, but mainly because some of the works which provide for the cross drainages had not been completed

3. The average annual receipts from the Productive works from all sources during the three years have been Rs 22,55,718, or Rs. 1,99,173 better than the average receipts for the previous triennium The increase is mainly due to larger returns from Irrigation. The receipts from Navigation and Miscellaneous sources also show some improvement The average annual working expenses were Rs 12,87,549, giving an average annual net revenue of Rs 9,68,169 This is better than the net revenue for the triennia ending March 1905 and 1902 by Rs 13,916 and Rs 4,70,455 respectively

4 The Capital outlay to end of the year 1907 08 on each of the canal systems and the financial results for the period under review are shown in the following statement.—

6 The results obtained in the collection of water-rates during the period under review and the two previous triennia are exhibited in the following table —

These figures indicate a high standard of work. The reduction in the number of the certificates and the very small amounts it has been necessary to write off as irrecoverable are particularly deserving of notice For the Sone Canals during the period under review on an average a nominal sum of Rs 2 has been written off as irrecoverable The number of certificates issued averaged only 19 per year, while the average annual sum collected was Rs 14,43,408

7 The Navigation receipts during the period under review and the two previous periods are shown below —

The increase in navigation receipts is chiefly from the Hijili Tidal Canal This is due to a larger export of rice to Calcutta and adjacent markets The navigation receipts from the Sone Canals, which decreased during the previous triennium, have also improved a little during the present triennium On the Orissa Canals the reduction made in the rates of tolls in July 1903 was successful in obtaining some increase in the volume of traffic On the Midnapore Canal the receipts show a marked falling of This was due mainly to a decrease made in the rates of tolls by half with effect from 1st June 1906 On all the canals the receipts for 1907 08 were adversely affected by the poor rice crop of that year

8 The average annual receipts classed as Miscellaneous Revenue for the period under review were Rs 1,19,723, against an annual average of Rs 1,12,811 during the previous period

9 In the following paragraphs a brief review is made of the chief points of interest on each system

10 On the **Orissa Canals** the Capital outlay (direct charges) incurred during the period under review amounted to Rs 71,158 This sum was expended mainly on the extension of 2A distributary of the Pattamundi Canal, the raising of the flood bank of that canal and the construction of the Dudhai Branch Canal and partly on permanent outlets and minor distributaries

The average annual receipts were Rs 4,81,278, or Rs 74,959 more than the annual average of the previous period. The increase was mainly in the water-rates

The average area irrigated was 263,863 acres, or 44,787 acres more than the average of the previous period Compared with the average of the period ending March 1902, the area irrigated during the period under review showed an advance of 61,908 acres The increase took place mainly under *kharif* (rice) The *rabi* irrigation from the Orissa Canals is very small

The average annual working expenses during the last three years were Rs 4,23,702, against Rs. 3,70,685 and Rs 4,51,297, the averages for the two previous periods The net result was an average annual revenue of Rs 57,576 in excess of working expenses, against an average annual revenue of Rs 35,634 in the previous period and against an annual deficit of Rs 52,303 in the period ending March 1902 The result is satisfactory

11. On the **Midnapore Canal** the Capital account was added to by a sum of Rs 8,344 (direct charges) spent on the construction of permanent outlets and on the extension and improvement of distributaries

The revenue receipts for the period under review were less than during the two previous periods, being Rs 1 73,033, against Rs 2,16,520 and Rs 2,37,273 respectively for the triennia ending March 1905 and March 1902 The decrease took place both under Water-rates and Navigation. The falling off under Water-rates is due to a decrease in the area irrigated, that under Navigation is chiefly on account of the reduction of the rates of tolls by half with effect from 1st June 1906 The average expenditure, on the other hand, increased, with the result that there is a considerable reduction in the net revenue, which averaged Rs 2,069 only, against Rs 70,092, the average for the previous period

The area irrigated, which was almost entirely under rice, decreased from an average of 88,944 acres in the three years ending March 1905 to an average of 65,783 acres in the period under review The decrease is due partly to the increase in the water-rate made from 1st April 1905 The *rabi* irrigation is nominal On this canal the irrigation is practically all done on leases for a term of years The great drawback to this canal system is the uncertainty of the volume of supply in the river, which fails in a dry October just when it is most wanted In the earlier part of the season the rainfall is usually ample and there is little need of canal water

12 On the **Hijili Tidal Canal** there has been an increase in the Navigation receipts The receipts from all sources averaged Rs 66,889, against Rs 42,875, the average of the previous period Compared with the period ending March 1905, the working expenses during the period under review show an increase of Rs 11,020, being Rs 48,018, against Rs 36,998 The increase is due to extensive silt clearance The net revenue was Rs 18,871, against Rs 5, 77 in the preceding period

13 On the **Sone Canals** Rs 7,062 were spent on works chargeable to the Capital account, the principal item of expenditure being the extension of the office building of the Executive Engineer, Eastern Sone Division, at Bankipore

The annual receipts from all sources averaged Rs 15,34,518, against Rs 13,90,831 and Rs 11,12,278 in the two previous periods The water-rates show a decided improvement during the period under review, the annual average having been Rs 14,43,346, against Rs 13,18,458 for the previous triennium

The average area irrigated during the triennium was 571,850 acres, against 493,878 acres in the previous period The increase took place both under *kharif* and *rabi* During 1907 08 the total area that was irrigated (648,920 acres) is the largest that has been attained so far on this system

The annual working expenses averaged Rs 6,44,865, or Rs 96,684 more than the average of the previous period The increase is due chiefly to special repairs to the Sone weir and renewals of and repairs to the lock-gates The net result of the working of the period under review was an average annual surplus of receipts over working expenses of Rs 8,89,653, which is equivalent to a return of 3 33 per cent on the Capital outlay. These canals have now practically ceased to be any burden financially to the Province, while their indirect value is great.

14 The **Dhaka Canal** has been in operation from the year 1906 07 The areas irrigated during that year and 1907 08 have been respectively 9,220 and 12,824 acres During the year 1907-08 there was a sharp demand for canal water for *kharif* irrigation

Water rate rules for the canal have been passed, and the receipts from water rates and miscellaneous sources during the years 1906 07 and 1907 08 amounted to Rs 2,944 and Rs 17,808 respectively

The Capital outlay incurred to end of 1907-08 has been Rs 4,82,461. The construction estimate has been closed on 31st March 1908, and all further Capital outlay will be incurred under the open capital rules

15 The Capital outlay (direct and indirect charges) on canals classed as **Minor Works and Navigation** was Rs 13,48,140 during the period under review and Rs 1,45,42,167 up to the end of this period. The average annual receipts and working expenses amounted to Rs. 6,25,404 and Rs 7,20,206 respectively, the net result being an average annual deficit of

Rs 94,802, against a net revenue of Rs 81,823 for the period ending March 1905

The financial results of each of the canals and the capital expenditure to date are exhibited in the following table —

	Capital expenditure (direct and indirect)		Average annual receipts of the triennial period less refunds	Average annual expenditure of the triennial period including indirect charges	Average annual net revenue of the triennial period	Average annual net result of the triennial periods ending

16 The **Calcutta and Eastern Canals** are a series of navigable channels, mostly natural and partly artificial, connecting Calcutta with the eastern districts of Bengal and with Assam The average annual receipts were Rs 5,03,481, or Rs 69,761 more than the annual average of the previous period The navigation receipts during the period under review show a steady advance over the receipts during the previous period This is due mainly to the increase of traffic in the Madaripur Beel channel The miscellaneous receipts also show an increase due to rents of land for warehouses on the banks of the canal The average annual working expenses amounted to Rs 4,33,117, against Rs 2,76,376 and Rs 2,66,435, the averages for the two previous periods The net result was an average annual revenue of Rs 70,364 in excess of working expenses, against an annual average of Rs 1,57,344 in the previous period This falling off is on account of unusually heavy working expenses due to (1) special repairs to the Dhappa lock and Kulti sluice, (2) thorough overhauling of the floors of most of the bridges on the Circular Canal, (3) silt clearance of the Tolly's Nala and other khals, and (4) working of dredgers hired from the Steamer Companies in the Beel channel and elsewhere The increased charge for establishment during the year 1907-08 also affected the average net revenue The annual average number of boats using the canals during the period under review was 130,577, against 122,471 in the preceding period

The outlay charged to the Capital account of this system during the period under review was mainly incurred on (1) improving a channel across the Madaripur Beel in the Faridpur district, (2) Dredger *Foyers*, (3) Ultadanga—Bamanghatta Canal, (4) constructing warehouses at Ultadanga, (5) bridge over the New Cut Canal in connection with (3), and (6) construction of a launch for the use of inspecting officers

The Madaripur Beel channel is at present available for steamers and flats drawing 6 feet of water from July to October and for country boats from June to December An estimate amounting to Rs. 31,66,876 for direct charges for the improvement of this channel has been recently sanctioned by the Secretary of State. This amount includes Rs 14,51,374 already spent on the project by this Government to end of 1906 07

As the Faridpur district is now in the province of Eastern Bengal and Assam, certain arrangements have been come to between this Government and

the Government of Eastern Bengal and Assam for the control and working of the channel The further deepening required will now be done by the dredger *Foyers*, which was obtained through the India Office, during the year 1906 07

17 The **Orissa Coast Canal** is a continuation of the Hijili Tidal Canal and is of use for navigation only There has been no improvement in the receipts during the period under review, which averaged Rs 31,074, against an average of Rs 33,761 in the preceding period The falling off is due to (1) railway competition, (2) reduction in the rates of tollage, (3) shortness of rice crop and (4) long closure of the canal for silt clearance and repairs to locks This latter cause also explains the large increase in working expenses, which amounted to Rs 1,09 060 against an average of Rs 54,566 in the previous period The financial results are far from satisfactory, the result being an annual deficit of Rs 77,966, against a deficit of Rs 20,805 in the preceding period It is not probable that this canal will ever pay its working expenses, but it is of service to the country through which it passes, and its indirect value appears to be sufficient to warrant the net charge to Provincial Revenues With a view to stimulate traffic the rates of tolls were reduced from January 1904 This had some effect The average number of boats using the canal during the period under review was 18,048, against 15,130 and 15,200 in the two previous periods The tonnage of cargo was 155,222, against 105,952 in the previous period, and the estimated value of the goods carried increased from Rs 21,94,586 in the period ending March 1905 to Rs 41,20,976 in the period under review

18 The **Saran Canals** remained practically closed during the past three years Water was, however, occasionally supplied at the request of the Managers of the Hathwa Raj and of Indigo Concerns who paid the cost of making the necessary dams, etc No water rate was charged, and the irrigation was not controlled by the Public Works staff

19 The work in the **Nadia Rivers** consists in the training of the low-water channels with the object of giving a greater depth over the shoals. This object is only attained to a small degree Still the work done is of use, and it guards against the danger of these off shoots of the Ganges which, after their junction form the Hughli, closing up altogether in the dry season

The annual receipts averaged Rs 60,807 during the period under review, against Rs 89,270 in the preceding period The annual average working expenses for the two periods were Rs 1,34,010 and Rs 1,17,978 respectively, and the net result was an annual deficit of Rs 73,203 for the period ending March 1908 compared with a deficit of Rs 28,708 in the preceding period The decrease in receipts is mainly due to the reduction by half of the rate of tolls during the flood season, which was introduced with effect from June 1906, and partly to the short crops and diversion of traffic by rail The increase under working expenses is chiefly due to the working of dredgers which were chartered from the Steamer Companies for removal of silt in the Bhairab river This was done as an experimental measure It was not successful With the growth of railway lines on either bank of the Bhagirathi it is not likely that the net revenue from these rivers will, to any material extent, improve These channels will, however, always have a certain value as traffic routes during the rains, and they are of importance as a source of supply of water for drinking and domestic purposes

20 The **Gaighata and Buxi khal**, which is a short channel connecting the rivers Damodar and Rupnarain, was maintained at an average annual cost of Rs 3,731 During the first year of the triennial period the right of collecting tolls on the khal was leased on an annual rental of Rs 4,500 and on an annual rental of Rs 3,000 during the next two years At the close of this period the collection of toll has been farmed out at Rs 4,500 per annum

21 The **Eden Canal** was constructed originally as a sanitary measure but is now used to some extent for irrigation also The average annual receipts were Rs 23,385, against Rs 26,594 in the preceding triennium The annual working expenses amounted to Rs 32,394, against Rs. 39,359 in the previous period, the net result being an annual deficit of Rs 9,009 compared with a deficit of Rs 12,765 for the period ending March 1905

The area irrigated during the triennium averaged 22,854 acres, against 27,536 acres, the average of the preceding period The decrease is due to the area being restricted to about 20,000 acres on account of the uncertainty of the supply from the head sluice at Jujuti The area under irrigation cannot be increased unless a weir is constructed across the Damodar river, a scheme for such a work is under consideration

22 The average area irrigated from the **Madhuban Canal** was 3,206 acres, against 2,399 acres in the previous period The average annual outlay incurred for maintaining the canal, including charges for establishment and for works of improvement was Rs. 4,661, against Rs 11,674 in the previous period A charge was first made for irrigation from this canal during the year 1905 06 when 551 acres were leased in the *rabi* season The average annual receipts were Rs. 2,590, against Rs 223 in the period ending March 1905

23 An abstract of the results of the experiments made on "average" rice crops in the irrigated and unirrigated lands, and the value of the outturn per acre during the triennial period under review is given below —

NOTE —Rice = ⅔rds of paddy

The high prices prevailing generally in 1907 08 have caused a great increase in the assumed average value This increase is only available to the cultivator to the extent to which he is in a position to sell the produce of his fields

24 The results of the work of the three years are, on the whole, satisfactory So far as the Major Works are concerned, there has been an increase in the revenue, and the works have been efficiently maintained On account of special repairs, which were unavoidable, there has been an increase in the working expenses The areas under irrigation have materially increased.

Water-rates have been collected almost in full with very little occasion to resort to coercive measures

The thanks of Government are due to the officers and staff of the Department generally

ORDER —Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy thereof and of the Chief Engineer's note be submitted to the Government of India in the Public Works Department, and circulated to other Governments and to all Departments and officers of this Government as usual

By order of the Lieutenant Governor of Bengal,

W A INGLIS,

Secretary to the Government of Bengal

THE following report is published for general information

CALCUTTA, F W DUKE,

The 6th November 1908 *Offg Chief Secy to the Govt of Bengal*

REPORT ON THE WORKING OF THE STEAM TRAWLER "GOLDEN CROWN" FROM JUNE TO SEPTEMBER 1908 WITH NOTES ON POND AND BHERI CULTURE

The proposed survey

IN paragraph 110 of Mr K G Gupta's final report on the enquiry into fisheries in Bengal, he urged the necessity of a regular fishing survey of the Bay under Government agency with a view to the opening up of a large supply of food material for the people of the country which has been hitherto overlooked and neglected As a first step towards the opening up of sea fisheries, it was considered essential that Government should undertake a systematic survey of the Bay from the fishing point of view, so that the favourite haunts and the periodical migrations of fish may be ascertained and recorded and practical demonstration given as to what the sea is capable of yielding As there would not be any immediate return from any such experiment and the initial outlay would be considerable, it was found necessary for Government to make the proposed survey Mr Gupta was anxious to have the proposed survey taken up at the commencement of the last cold season, and a definite proposal was submitted to Government in this office letter No 570, dated the 31st October 1907, in advance of the publication of the final report

2 For the proposal Cape Colony furnished a successful and appropriate precedent There was no deep sea fishing worthy of the name there until Government bought a steam trawler and obtained the services of a suitable staff for the proper survey and investigation, with the result that now several steam trawlers owned by private parties are engaged in fishing The proposal was approved and the Secretary of State was approached to sanction the scheme and to send out a suitable trawler with necessary appliances

Description of the survey vessel

3 The trawler *Golden Crown* was bought by the Secretary of State and altered and fitted out to suit the climate and the requirements The vessel was built in 1896 at Hull and is of gross tonnage 183 and dimensions B P 110 × 21 × 11-$\frac{4}{10}$ with draft loaded 13 feet 6 inches and speed 10 knots on 5 tons per diem with triple expansion engines by C D Holmes & Co, 60 H-P and with new steel multitubular boilers (December 1907) She was fitted up with large trawling winch capable of taking 1,000 fathoms There was complete outfit of otter trawls, drift nets and long lines, and she was certified to be in first class condition throughout, having passed her No 3 special survey with Lloyds and was inspected and approved by the Board of Trade. A considerable sum was spent on her by her late owners in fitting new decks and thoroughly overhauling her in every part Everything was done by the surveyor of shipping to ventilate the quarters and to make the vessel suitable for tropical work These additions and alterations took considerable time owing to which the vessel could not start before 19th February, when she sailed as bound on a two years' fishing voyage to and in the Bay of Bengal with the Secretary of State for India in Council as registered owner and under the charge of a permanent staff of five English crew and a temporary staff whose engagement was only to reach her to Calcutta

Alterations on arrival

4 Immediately after her arrival in port I arranged an inspection of the vessel by the Deputy Director of the Royal Indian Marine assisted by the Naval Constructor on the morning of the 7th April The Port Officer also kindly assisted me with advice and observation during the inspection As the result of the inspection further improvements and alterations were found to be imperative, and on Government sanctioning the alterations, the work was taken up as urgent, and by the 10th of June the vessel was ready to sail

First voyage

5 On the 13th of June, with 20 tons of ice, with five European crew, one navigating officer and 17 Indian crew and two fishermen, the *Golden Crown* made her first trial trip, and on going out met the first onset of the monsoon at the mouth of the Bay, but in spite of this commenced trawling on the 15th June and proceeded to Balasore Roads, where she continued her operations at several places From that time till the end of September she has made several cruises in the west coast to places from Pilot Ridge light vessel to the south-west of Puri and in the east coast in the neighbourhood of Elephant Point and Eastern Channel light vessel, with occasional stoppages compelled by the necessity for petty repairs and other incidental difficulties These stoppages, however, afforded welcome rest to the overworked crew, who had to be continually out during the worst monsoon months

Trawling cruises

6 The actual operations during this period took place on 40 days, and the total catch amounted to about 12 tons in all The quantity of the catches is very steadily increasing

Establishment

7 The vessel is in charge of a master skipper who is a well known trawling Captain from Hull He is assisted by the trawling first hand (Mate), one drift net expert and a long line expert Both these experts are at present helping the skipper in trawling operations This will continue to be so until some other arrangements can be made to carry on experiment with drift nets and long lines Besides these, a navigating officer with a master mariner certificate has to be retained for such a time as would enable the skipper to become familiarized with the Bay The engine is under the charge of an experienced European Engineer Besides, there is a complement of Indian crew, 17 in number, and two fishermen One of the fishermen has shown such satisfactory progress that I took one fisherman apprentice sent by the Collector of Cuttack and two fishermen apprentices sent by the Raja of Kanika for training The Cuttack man showing good aptitude has been taken in as a deck hand I am endeavouring to make our fishermen take interest in the work of the trawler and I am glad to be able to say that so far my attempt has met with some success

Carriage of fish from the fishing grounds

8 One of the important parts of the experiment is the safe bringing up of fish in good condition to Calcutta In this respect the trawler has shown very satisfactory results The fish hold and ice hold of the trawler seem to be all that are desired The ice once loaded keeps well, there being very little wastage, and fish preserved in ice in the hold are brought to Calcutta in good condition without any deterioration in quality or appearance On the average 15 tons of ice are being taken each trip The ice is being supplied by two ice companies of Calcutta in equal shares at the cheap rate of Rs 15 per ton

Sale of fish

9 The demand for a regular supply of sea fish is increasing gradually, and I have arranged through the Superintendent of Sir Stuart Hogg Market to put a certain quantity of sea fish daily in the market according to demand from the Linde Cold Store, where the entire stock is placed on arrival of the trawler in port As the Linde Cold Store is situated at some considerable distance from the landing jetty and also from the market, a good deal of difficulty is being at present experienced in the transport of fish to and from the store I am, however, giving my best attention to the satisfactory solution of the difficulties The sale proceeds are increasing steadily They have risen from Rs 700 in August to Rs 900 during September It is believed that the sale of the trawler's fish has set free a large quantity of otherwise indifferent fish for the use of the masses, thus having been the means of lowering the price of ordinary kinds of fish which are the chief nitrogenous food available for the bulk of the people

Utilisation of indifferent fish

10 As a large quantity of indifferent fish and other sea fish, against which people still have some prejudice, is accumulating in the cold store, I have already arranged to open a small factory for the preparation of isinglass, fish oil and fish glue in consultation and co operation with the Reporter on Economic Products

under whose advice sanction has already been obtained for opening a drying house I am also in communication with the Director of Agriculture for utilization of rejected fish for manure I am hopeful to effect these arrangements shortly, thus being able to utilize the entire catch in the near future

Specimens of fish

11 As one of the main objects of the fishery survey is to determine the haunts and migration of different species of fish found in the Bay, I am getting the representative species of each cruise identified by Mr B L Chaudhuri, through the kind co operation and guidance of the Superintendent of the Indian Museum, who very kindly supplies the vessel with two jars of Formalin Solution at each trip, and under whose guidance all the specimens collected are identified and preserved I am glad to be able to say that already about 100 species have been identified, of which many are for the first time reported from the localities, and about six are believed to be new to science Dr N Annandale has proposed to illustrate these fish lists with plates which he estimates will not cost more than Rs 400 The proposal is now before the Government for sanction, on receipt of which the fish lists will be published as an appendix to this report with description illustrated by plates

Miscellaneous

12 I undertook certain enquiries to find out whether it would save time expense and handling by stopping the trawler at Diamond Harbour and Balasore and then bringing up fish by train to Calcutta. So far as I have been able to ascertain, I find that the cost of carriage of ice and drinking water as well as the expense of loading and unloading at a distant port will far exceed the saving that may be otherwise effected The trawler now takes full eight hours' run from Sand heads to port, and as ice is keeping on well, no difficulty is experienced in allowing her to come up to Calcutta

Pond culture

13 It was decided to experiment on breeding of rahu, katla, mirgal, etc, in confinement in anticipation of the return of the student who has been deputed to Germany to study carp breeding A very suitable plot of ground was selected in Baliganj which was formerly occupied by the First Calcutta Volunteers As the Volunteer Battalion was about to sell off the selected plot by private negotiation to private parties, I had to take up the matter as urgent, and after several interviews and consultations it was ascertained that the land was Government land The matter is still pending before the Military authorities for sanction of transfer of the plot to be utilised for the purposes of this department Apprehending delay in the negotiations, I offered to Government a small plot of ground at Barh to be experimented on as a breeding pond With this purpose in view a station with a small establishment has been opened at Barh where pond excavation is being carried on Owing to the exceptionally dry season no water bearing stratum has been reached yet In the meantime I made some arrangements to gather spawn and try in the bed of the Bhagirathi at Tribeni and the fry was successfully caught and distributed in Purnea, Patna, Bankipur and two tanks in Calcutta, as a provisional experiment, and so far it has given good results I have also distributed printed directions for stocking of tanks throughout the Province and have received some applications for the supply of fry at the market price

Bheri culture

14 I have made an extensive enquiry to ascertain the condition of bheris in the north Salt Lake I have found that owing to the very profitable outturn of these bheris, all bheri land is under lease, and even paddy land is being converted into bheris I have after all found one bheri under conditional lease in the Bhangar canal, where the leaseholder happens to be a tenant at will under the Public Works Department (Eastern Canals Circle) I have decided to commence my experiments in the bheri with the help and co operation of the Executive Engineer in charge from the commencement of the bheri season which begins from the month of February each year

Introduction of new species.

15 I caused an extensive enquiry to be made to ascertain a suitable place for mahseer fingerlings for introduction in the Chota Nagpur Division Arrangements are proceeding to utilise a portion of the lake at Hazaribagh as a stocking pond

for the same under the direct control and supervision of the Deputy Commissioner of the district The officers of Ranchi had also suggested mahseer being cultivated in that part of Chota Nagpur, and I trust that as soon as the experiments at Hazaribagh are successful, they will be taken to Ranchi as well My visit to Madras Presidency has been of considerable use to me, and as soon as Dr Jenkins arrives here, we may be in a better position to cope with the difficulties that are felt at present

GENERAL SUMMARY —The week was rainless *Aman* paddy is suffering from drought in many districts of Lower Bengal and Bihar In Muzaffarpur and Darbhanga the crops in many cases are being cut for fodder Rain is urgently wanted for the standing crops and *rabi* sowings, the progress of which is being seriously retarded for want of moisture in the soil Sugarcane-pressing has commenced in some districts of Bihar and Orissa, and early *aman* paddy is being harvested in Orissa and Chota Nagpur The price of common rice has risen in Patna, Gaya, Champaran, Darbhanga, Sambalpur, Palamau, Manbhum and Singhbhum, and has fallen in the Presidency Division and in Muzaffarpur, Monghyr, Bhagalpur, Cuttack, Balasore, Angul and Ranchi Stocks of food-grains are insufficient in Balasore and in parts of Murshidabad The agricultural situation in North Bihar is at present unsatisfactory, but good rain during the next fortnight would help greatly Cattle disease is reported from Jessore, Darbhanga, Monghyr, Ranchi, Palamau and Manbhum The fodder and water supply is generally sufficient In parts of the Sonthal Parganas, however, there is a fear of scarcity of fodder, and in some places in Muzaffarpur and Darbhanga the water-supply is at present inadequate The test works in Nadia, Darbhanga and Puri were attended by 2,113 persons and gratuitous relief was given to 7,612 persons, of whom 7,516 are in Orissa and 96 in Darbhanga

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

(b) The notification shall state that on the day so fixed or on any other day to which the proceedings may be adjourned, the Revenue Officer will record rents and will decide all questions of status and claims to special rights or privileges in any lands and record existing rights of tenants or residents in regard to the jungle and waste lands of the village, and commute and include in the cash rent of the holding the value of prædial conditions in accordance with the rules and will receive and dispose of applications for the commutation of produce rent, and deal with objections relating to entries in the record or omissions therefrom, and it shall require all parties interested in the subject-matter of the enquiry to attend at the time and place specified, with their parchas, and with such evidence as they have to offer in connection with the proceedings

(c) Such notification shall be published by proclamation and fixed up in the presence of not less than two persons in some conspicuous place in the village to which it refers

14 The Revenue Officer may also, if he so deems fit, take such additional measures under the powers conferred on him by rule 4, as he may deem desirable to procure the attendance at the place specified in the notification issued under the last preceding rule, of the occupants, under-raiyats, raiyats, tenure holders, landlords and proprietors or their authorised agents

15 On the date specified in the notification issued under rule 13, or on any other date to which the proceedings may be adjourned, the entries which have been made in the khewat and in each khatian shall be read out in the presence of such of the interested parties as are in attendance If the correctness of any entry is questioned, the Revenue Officer shall dispose of the objection after local enquiry or otherwise provided that, if the correctness of a measurement be objected to, and a fresh measurement be demanded or if a local enquiry is necessary to decide any objection, the Revenue Officer may require the cost of such remeasurement or local enquiry to be deposited If it appears from the result of the measurement or local enquiry for which costs have been deposited that the objection was not frivolous or groundless, it shall be open to the Revenue Officer to refund the cost or any portion of the cost which he may think fit to refund

16 The Revenue Officer shall enquire into any claim put forward for Mundari khunkatti tenancies and shall also ascertain which of the raiyats are raiyats having khunkatti rights or settled raiyats or occupancy raiyats and shall record them as such

The Revenue Officer shall ascertain what raiyats are non occupancy raiyats, and to this end he shall be entitled to call upon the landlord or his agent to produce a statement showing the names of raiyats alleged by him to be non-occupancy raiyats On the production of such statement he shall explain to those raiyats the provisions of sections 15, 16 and 17 of the Chota Nagpur Tenancy Act If after such explanation a raiyat admits that he is a non occupancy raiyat and if the attestation officer is satisfied of the correctness of the admission he shall record the raiyat as a non-occupancy raiyat If he does not admit himself to be a non-occupancy raiyat, the Revenue Officer shall call on the landlord to prove the allegations made by him in regard to such raiyat

17 The Revenue Officer shall ascertain and record what lands are korkar, and what lands are Bhuinhari under Act II of 1869 and what lands are khunkatti

18 The Revenue Officer shall summarily ascertain the rent at present payable by the tenant, and record it in the appropriate column of the khatian as the rent payable in respect of land held by the tenant In recording rents the Revenue Officer shall have regard to the provisions of the Chota Nagpur Tenancy Act regarding enhancement of rent and shall record only such rent as is legally payable

In order to carry out the instructions of this rule the Revenue Officer shall, before proceeding to attest the records of the village, hold a preliminary enquiry at which he shall record briefly the deposition of the landlord or his agent and at least one tenant and shall make such further enquiry as may be necessary and shall record a finding upon the rates of rent for each class of land prevailing in the village.

19 In the course of the preliminary enquiry into the rates of rent prevailing in the village, the Revenue Officer will also ascertain the prædial conditions to which each class of tenants in the village is subject, and shall record a finding showing what prædial conditions, if any, are renderable by the general body of tenants, their cash value and shall prepare a statement in Form 6 of the Schedule The cash value of prædial conditions as commuted by the Revenue Officer under section 111 of the Chota Nagpur Tenancy Act shall be recorded separately from the rent in the khatian and included in the total rent payable by raiyats In the case of tenure holders the commuted value of prædial conditions will be entered in the khewat

In ascertaining and commuting prædial conditions the Revenue Officer shall be guided by the provisions of section 111 of the Chota Nagpur Tenancy Act, special regard being given to the proviso under section 105 (3) Any prædial conditions which are by custom or contract already payable in cash will still be treated as subject to the proviso of section 105 (3) of Chota Nagpur Tenancy Act

20 Cesses which are authorised by law shall be recorded separately from the rent in the khatian, or in the case of tenure holders in the khewat

No demand of any other kind will be recorded in the khatian

21 The Revenue Officer will at the time of attestation also record in a form prescribed by the Board the rights, as specified in section 81 (n) of the Chota Nagpur Tenancy Act

which are enjoyed by any class of persons according to established custom in each plot of jungle in the village and the conditions under which such customary rights are enjoyed

22 Where a notification under section 127, Chota Nagpur Tenancy Act has been issued, he shall also prepare a record of the rights and obligations of the village headmen

23 When the record of rights and of existing rents has been prepared and attested in the manner prescribed in rules 13 to 22, and when the record shall have been arranged and corrected in accordance with the orders which the Revenue Officer may have passed, he shall record a proceeding in which he shall state that attestation of the records and commutation of prædial conditions, if any, has been completed, and shall then cause the draft record of rights to be published in the village in the manner provided in rule 24

24 If applications for the commutation of produce rents are filed before the Revenue Officer at the time of attestation, they may be disposed of either before draft publication or after draft publication, according to convenience If they are disposed of before draft publication, the settled rents will be incorporated in the settlement record before it is draft published.

V Publication of the draft record

25 (*a*) As soon as the record-of-rights has been prepared and attested, a notice shall be posted up at the landlord s office in the village or, in the presence of not less than two persons, in some conspicuous place in the village, stating that the draft of the record will be published in the village on a day to be specified, not less than a week from the date of the posting of such notice, and calling on all persons interested to attend on the date so specified, provided that the draft of the record shall not be published until the proceeding under rule 22 has been recorded

(*b*) On the date fixed for the publication of the draft records the Revenue Officer shall either proceed to the village himself and read the contents of the records in the presence of the parties who attend, or he shall depute an officer, not below the rank of kanungo, who shall read out the contents of the records in the presence of as many of the parties as attend, and the Revenue Officer or officer deputed by him as the case may be, shall at the same time inform the parties who attend that the draft records will be open for inspection for not less than one month in the office of the Revenue Officer, or in such other convenient place as the Revenue Officer may determine The Revenue Officer shall receive and consider any objection which may be made to any entry during the period named Objections shall as far as practicable be made in Form 3 of the Schedule

VI—Disposal of objections under sections 83 and 111 (6)

26 When an objection is made before the expiry of the period of publication of the draft record prescribed under rule 25 regarding the correctness of any entry or as to the propriety of any omission, notice of the objection shall be served on all persons whose interest may, in the opinion of the Revenue Officer, be affected thereby, and they shall be called upon to attend at such time and place as the Revenue Officer may fix for the disposal of the objection If no person attends to contest the objection, and the Revenue Officer is satisfied that the notice of objection has been duly served on all persons interested, the objection may be allowed and the records amended accordingly, or the person who made the objection may, if the Revenue Officer thinks fit, be called upon to produce evidence in support of his objection

All such objections shall be dealt with summarily under such instructions as the Board of Revenue may prescribe

VII—Settlement of rents before final publication

27 When the Revenue Officer settles fair rents in isolated or individual cases before final publication under section 85 (3) (*a*) and (*b*), he shall follow *mutatis mutandis* the procedure laid down in rules 32 to 37 below for the settlement of fair rents after final publication, and shall incorporate the settled rents in the record to be finally published under rule 29

28 When rents are settled before final publication for whole villages or for larger areas, the Revenue Officer should adopt the following procedure —

(*a*) He should first serve a notice on the village in which settlement of rents is about to be made The notice shall be in Form VII of the Schedule and shall set forth that on a date named and at a place named the Revenue Officer will settle fair rents in respect of all estates, tenures or holdings and for unsettled lands included in such village Such notice shall be served at least one week previous to the date fixed for settlement of fair rents When such notice has been served it shall be held that all persons have been sufficiently warned of the date fixed

Provided that when in the course of proceedings a Revenue Officer proposes to alter an existing rent and the parties have not attended in compliance with the general notice, the Revenue Officer shall serve each person interested with a special notice and the fair rent

shall not be settled in the absence of such person until after due service of such special notice has been proved

(b) On the date fixed in the notice under rule 23(a) or any subsequent date to which the proceeding shall be adjourned, the Revenue Officer shall proceed to settle rents in the manner prescribed in rules 35 (c) and 37

(c) The settlement of rent for any number of tenants occupying land under the same landlord, whose interest is recorded in the same khewat entry in the same village, may, upon the application of the parties or at the discretion of a Revenue Officer, be disposed of in one proceeding, provided that if at any time it appears to the Revenue Officer that the question between any two of the parties, of whom one is so joined with others cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order for the joint or separate disposal of the application as he may think fit

(d) When a fair rent has been settled under those rules it shall be entered in the khatian as the rent payable in respect of the holding for the rule prescribed by section 97

(e) It shall not be necessary for a Revenue Officer to draw up a separate decree with regard to the fair rent settled, but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree

VIII —Final publication of the Records of rights

29 When all objections under sections 83 and 111 (6) of the Chota Nagpur Tenancy Act have been disposed of as provided for in rule 26 above, and when the draft records have been corrected in accordance with the orders passed, and when the rents, if any, settled under section 85 (3) (a) (b) or under section 61 of the Act have been duly incorporated in the record, the Revenue Officer shall finally frame the records and cause them to be published by notifying that their contents will be read out in the village on a date to be specified not less than a week from the date of the publication of such notice, and by reading them out himself or causing them to be read in the village on the date so specified, in the manner prescribed in rule 25, in the presence of the parties or of as many of them as attend The officer engaged in final publication shall serve a copy of the entries in any record prepared under section 129 upon all persons interested in those entries, in the manner prescribed in rule 3

30 When the record-of-rights of all villages in any local area has been finally published, the Revenue Officer shall submit a report to the Local Government containing such particulars as may be necessary in order to enable the Local Government to issue a notification under section 84(2) of the Chota Nagpur Tenancy Act

IX —Distribution of copies of the Record-of-rights to parties interested

31 (a) A copy of the record-of-rights as finally published or an extract therefrom shall be made over to the landlord concerned, or where there are more landlords than one, to their common manager, as the case may be, or, if there be no common agent or common manager, to such person among the landlords as the Revenue Officer may think fit The copy or extract shall bear a certificate under the Revenue Officer's signature and seal that it is a copy of or extract from the record of rights as finally published

(b) An extract from the khatian relating to his tenancy shall be given to every tenant under the seal of the Revenue Officer and under the signature of an officer duly authorized by the Revenue Officer to give copies

(c) Copies of records, or of extracts from them, supplied to landlords and tenants under this rule shall be given free or on payment according as in the case of each local area the Local Government may direct When payment is required, the sum so recovered shall be adjusted against the expenses incurred on account of survey and settlement

X —The settlement of fair rents after final publication

32 When the landlord or tenant applies for a settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant The proceedings shall be dealt with as suits and subject to the directions contained in rule 35 (a) of this Chapter, the Revenue Officer shall adopt, as far as practicable, the procedure laid down in Chapter XVI, Chota Nagpur Tenancy Act, for the trial of revenue suits

33 Notice in Form VIII shall be served on every person interested in the application, together with a copy of the application, or extract therefrom, or summary thereof, so far as the application concerns such person

34 With the consent of the Revenue Officer any number of tenants of the same status holding land under the same landlord, whose interest is recorded in the same khewat entry in the same village, may make a joint application for the settlement of rents, or may be joined as defendants in the same proceeding on a similar application by the landlord Provided that, if at any time it appears to the Revenue Officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly

tried, he may order a separate trial to be held of that question, or he may pass such order in accordance with the Code of Civil Procedure, for the joint or separate disposal of the application as he may think fit

35 (a) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings may be adjourned, the Revenue Officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to settle a fair rent under the provisions of section 85

When the record has been read over as provided for above, the Revenue Officer shall record all claims to enhancement or reduction of the existing rent and shall try and decide any issues which may be raised under section 86, Chota Nagpur Tenancy Act

(b) Where a landlord or tenant does not attend, after due service of notice has been proved, the procedure may be separate

(c) Where a landlord or tenant appears the Revenue Officer shall record evidence in the manner prescribed in section 164 of the Act and shall settle a fair and equitable rent In important cases the evidence should be recorded at length

(d) When a fair rent has been settled under these rules, it should be entered in the khatian as the rent payable in respect of the holding from the date prescribed by section 97

36 It shall not be necessary for a Revenue Officer to draw up a separate decree with regard to the fair rent settled, but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree The Revenue Officer should carefully scrutinize the individual entries in schedules, where rents are settled for a number of tenants in joint proceedings, to ensure that injustice be not caused to individuals by the application of general rules

37 When in the settlement of fair rents issues are raised under section 86 of the Act, they should be heard and decided before fair rents are settled Proceedings under section 86 shall be dealt with in all respects as suits between the parties Such suits shall ordinarily be tried separately for each tenancy unless the Revenue Officer, for reasons to be recorded by him considers that the suits affecting two or more tenancies may be conveniently tried together without prejudice to the parties concerned

XI —The trial of suits under sections 87, 111 (8), 130, and 252 of the Act

38 Proceedings under sections 87, 111(8), 130 and 252 of the Act shall be dealt with in all respects as suits between the parties The finally published records shall be corrected in accordance with the orders that may be passed in all such proceedings

Deposit of settlement records with the Deputy Commissioner

39 The finally published record as completed under rules 35 and 38 shall be made over to the Deputy Commissioner of the district and shall bear a certificate that it is the finally published record under the Revenue Officer's signature and seal

CHAPTER III

RESOLUTION REVIEWING THE REPORTS FROM COMMISSIONERS OF DIVISIONS ON THE WORKING OF DISTRICT BOARDS IN BENGAL DURING THE YEAR 1907-08

MUNICIPAL DEPARTMENT—LOCAL SELF GOVT

Calcutta, the 9th November 1908

RESOLUTION—No 1699L S G

Resolution on the Reports from Commissioners of Divisions on the working of District Boards in Bengal during the year 1907-08

There was no change in the number of District and Local Boards during the year One new Union Committee was established with effect from the 1st September 1907 at Ulubaria, in the subdivision of that name in the Howrah district, on the withdrawal of the provisions of the Bengal Municipal Act, 1884, which were previously in force in that place

2 *Constitution of District Boards.*—The total number of members of District Boards remained unchanged The total number of meetings held (428) was about the same as in 1906-07 Only 20 were adjourned or proved abortive for want of a quorum. The District Boards of Manbhum and Birbhum held the largest number of meetings, viz, 21 and 20 respectively, Patna, Shahabad and Saran following with 18 meetings each, and of the rest only Puri, Sambalpur and Palamau failed to meet at least once a month The average attendance at meetings (12 8) shows a slight improvement over that of the previous year (11 5) Taking the total number of members in each Division into consideration, the Patna Division shows the best attendance (62 per cent), and Chota Nagpur the smallest (43 per cent)

3 *Constitution of Local Boards*—No change occurred in the number of members. Of 846 meetings convened, 119 were adjourned or proved abortive

for want of a quorum Thirty-five Local Boards failed to meet once a month The average attendance of members at meetings was 5 2, as compared with 5 9 in 1906-07 and 4 9 in 1905 06

4. *Elections* —General elections were held in the districts of Birbhum, Bankura, Hooghly, Khulna and the 24 Parganas The Divisional Commissioners report that very little interest was taken by the people in these elections In several cases the elections failed, and the vacancies had to be filled by nomination by Government

5 *Union Committees* —There were Union Committees only in the Burdwan, Presidency and Orissa Divisions, as in previous years The aggregate income of the 50 Union Committees, which were in existence during the year, excluding the opening balance, declined from Rs 18,582 to Rs 16,913, and the total expenditure from Rs 19,323 to Rs 16,052 Twenty-three Union Committees expended the whole or nearly the whole of the allotment placed at their disposal The Commissioners of the Burdwan and Presidency Divisions report that many of the Union Committees in their Divisions did useful work during the year The Memari Union in Burdwan and all those in the Orissa Division again incurred no expenditure, and practically did nothing during the year The question of infusing life into these Committees, and extending their sphere of usefulness will shortly be taken up in connexion with the Bengal Local Self Government (Amendment) Act, 1908, which contemplates the delegation of extended powers to those bodies in the matter of village sanitation and water-supply

6 *Financial results* —The gross opening credit balance of the year was Rs 28,22,764, and the total receipts of the District Boards from all sources amounted to Rs 79,38,862 The total amount available for expenditure was thus Rs 1,07,61,626, of which Rs 79,29,121 were disbursed during the year, leaving a credit balance of Rs 28,32,505 on the 31st March

The table below compares the income and expenditure of the District Boards under the main heads of account in the past two years —

INCOME

7 *Provincial Rates* (*Rs 34,06,194*) —There was a large increase of revenue under this head, amounting to Rs 1,62,242, which was shared more or less by all the Divisions except Bhagalpur, where the income declined by Rs 8,093 The largest increases of Rs 80,199 and Rs 64,298 are returned by the Patna and Chota Nagpur Divisions, respectively In the former Division the recovery of arrear demands from some big zemindars accounts for increases of Rs 61,602 in Darbhanga and of Rs 24,008 in Gaya In the Chota Nagpur Division the increase was shared by all the District Boards, and was due to the revision of assessments on mines in Hazaribagh and Manbhum, to better collection in the Chota Nagpur Estate in Ranchi, and to the recent revaluation in the District of Palamau

8 *Police* (*Pounds*) (*Rs 3,43,487*)—The total number of pounds maintained by the District Boards was 2,773, and the revenue derived from them shows an improvement of Rs 10,564 The increase was shared by the Burdwan, Patna and Chota Nagpur Divisions, while there was a decline in the remaining Divisions The largest increase occurred in the Champaran district (Rs 4,339) There were comparatively large increases also in Midnapore (Rs 1,783), Darbhanga (Rs 2 429), Sambalpur (Rs 2,531), Ranchi (Rs 1,803 and Palamau (Rs 2,381) The improved revenue is ascribed generally to better settlements and better collection of rents, and to the increase in the number of pounds and in the amount of sale proceeds of unclaimed cattle On the other hand, there were considerable decreases in the districts of Cuttack (Rs 2,528) and Bhagalpur (Rs 1,619) In these two districts the pounds were settled in the previous year, when large security deposits were received and credited to the Boards The reports show that more interest is being taken by the Boards generally in the administration of the pounds

9 *Civil Works* (*Rs 15,55,948*) —The receipts under his head show an aggregate decline of Rs 1,82,052, which occurred almost entirely in the Patna Division, and has not been fully explained The annual grant of 9 lakhs made by Government to augment the resources of District Boards with a view principally to improve roads and communications, etc, is included mostly under this head

10 The receipts from *Ferries* show a marked increase of Rs 40,456 The improvement was most noticeable in Patna (Rs 5,829), Muzaffarpur (Rs 17,887) and Darbhanga (Rs 34,083) Better settlements, prompt realization of the demand and the recovery of security deposits on fresh leases account generally for the increase in these three districts, as elsewhere also The income fell largely in Midnapore (Rs 3,100), Khulna (Rs 3,008), Cuttack (Rs 3,977) and Shahabad (Rs 3,068) No explanation has been given of the decrease in Midnapore In Khulna it was due to the failure of the Board to realize rents due from lessees, and in Cuttack it was only apparent, as in the previous year the ferries were resettled for three years and security deposits equal to one half of the annual rent were received and credited to the Board

11 *Loans* (*Rs 7,96,698*) —The 24-Parganas District Board obtained a loan of Rs 6,39,698 for the execution of the Magra Hât Drainage Scheme referred to in last year's Resolution The Muzaffarpur District Board took a loan of Rs 1,25,000 for the repair of damages to roads and bridges caused by the floods in the previous year, and the Manbhum Board of Rs 32,000 for the improvement of roads

12 The income under ***Interest*** and under *Scientific and other Minor Departments* was practically the same as in the preceding year Under *Education* there was a decrease of Rs. 11,285, which is more than accounted for by the falling off in contributions received during the year The receipts under ***Medical*** rose by Rs 42,013, chiefly in consequence of grants made by Government The figures under the remaining heads call for no special comment

EXPENDITURE

13 *Administration* (*Rs 2,13,336*).—There was a decrease of Rs 9,570 in the aggregate expenditure under this heading, owing to the abolition, with effect from the 1st April 1907, of the fees for audit and banking hitherto

charged by Government. Office establishment and contingencies show increases of Rs 2,543 and Rs 6,445, respectively, due to normal expansion of work

14. *Education (Rs 11,70,390)*—The total expenditure on this important branch of the Board's administration shows an increase of Rs, 26,237, which occurred mainly under "Primary schools maintained and managed by the Board" The largest increase (Rs. 43,135) occurred in the Patna Division The Darbhanga district shows an increase of Rs 20,316, which was mainly due to larger expenditure on the subordinate inspecting agency, on stipends in boys' and girls' schools and on prizes for primary education There was also a large increase (Rs 10,650) in the Sambalpur district, which has not been explained During the year, one high school, 132 middle schools, 95 upper primary schools and 7 industrial schools, with 497, 8,731, 7,992 and 160 pupils, respectively, on their rolls, were maintained by the District Boards In the upper and lower primary schools aided by the Boards, 657,531 boys and 77,902 girls received instruction, as compared with 646,040 boys and 72,524 girls in 1906 07 Four District Boards, viz, Hooghly, Jessore, Purnea and Manbhum, failed to spend on education the full amount assigned for this purpose from Provincial Revenues There is no apparent excuse for this failure, as in none of these districts did the receipts during the year from pounds and ferries taken together decline, as compared with the revenue estimated from those sources in the settlement of the fixed grant made to the Boards

15 *Special Schools*—The technical schools maintained or aided by the District Boards of Burdwan, Khulna, Midnapore, Bhagalpur, Ranchi, Hazaribagh and Manbhum were continued during the year Small technical schools were also maintained by the District Boards of Shahabad, Saran and Darbhanga Besides the maintenance of technical schools, most of the Boards gave scholarships to pupils attending either the Sibpur or Bihar Engineering Colleges, the Veterinary College at Belgachhia, the Deaf and Dumb School at Calcutta, the Government School of Art, Calcutta, or the Government Medical Schools in Calcutta and Patna One scholarship of Rs 25 a month tenable at the Medical College, Calcutta, was also awarded by the Shahabad District Board Scholarships were also given to some pupil-nurses at the Temple Medical School and the female Hospital at Chinsura

16 *Industrial development*—Attempts continued to be made by several District Boards to popularize the fly-shuttle loom, with but limited success In the Chota Nagpur Division the number of industrial schools and the number of pupils in them fell from 21 and 328 to 16 and 263, respectively The decrease occurred in the district of Hazaribagh, and was due to the withdrawal of aid from five industrial schools owing to their unsatisfactory working In the district of Manbhum two industrial schools at Tanasai and Pandra received aid from the District Board The Raghunathpur Weaving School, which received a monthly grant of Rs 10 from the District Board, was abolished during the year, as the working of the school was found to be unsatisfactory, and the attendance of the boys nominal The fly shuttle loom, which had been supplied to this school by the Board, was sent to the Rev Dr Campbell of Pakhuria, who has established a similar institution, where there are now 11 looms The teacher and instructor is a weaver belonging to the district, and is one of the men who were sent to Serampore at the expense of the District Board some years ago to be taught the use of the fly shuttle There were nine apprentices working at this institution during the year The reports of the Special officer appointed by Government to survey the industrial position and prospects in the Province and enquire into the existing conditions of technical and industrial instruction have been received since the close of the year These reports have been considered by a Committee convened for the purpose, and Government is now considering what specific action should be taken to give effect to the recommendations made

17 The District Board of Hooghly contributed Rs 1,500 towards the second Industrial and Agricultural Exhibition held at Chinsura during the year The Commissioner reports that this exhibition was highly appreciated by the people, and was considered to be a great success in diffusing among

the public a knowledge of the products of different parts of the district and in encouraging local industries and agriculture The Bankura District Board contributed Rs 300 to a local Agricultural Association for the collection and preservation of specimens of local arts and industries The Birbhum Board gave a grant of Rs 250 towards the Cattle and Agricultural Show held at Suri An Agricultural Exhibition was held at Kushtia in the Nadia district, and a Cattle Show and an Agricultural Exhibition were held at Khulna, to the expenses of which the District Boards concerned contributed The Commissioner reports that both those exhibitions aroused public interest The District Board of Manbhum incurred an expenditure of Rs 3,025 on the Agricultural Show which is annually held at Purulia in that district Sir Andrew Fraser attaches much importance to those shows The attention of District Boards has been specially drawn to the propriety of encouraging local, industrial and agricultural shows, by making suitable grants in aid as their funds may permit, and it is hoped that further mention of such shows will be found in the Divisional reports in future years

18 *Medical* (*Rs 4,06,096*) —It is gratifying to observe that the District Boards continue to show keen interest in the promotion of medical aid in their districts The expenditure increased under this head by Rs 33,368 The total number of dispensaries wholly maintained by the Boards rose from 129 to 139, and the number aided by them from 137 to 147 Four new dispensaries were opened by the District Board of Khulna and one each by those of Hooghly, the 24 Parganas, Shahabad, Darbhanga, Cuttack, Balasore and Ranchi The District Board of Jessore, on the other hand, closed one of the eight dispensaries maintained in the previous year The reason for this step should have been explained No dispensaries were maintained by the District Boards of Murshidabad, Sambalpur and Hazaribagh These Boards, however, contributed to the dispensaries maintained from other sources in their districts For the maintenance of the new dispensary opened by the Hooghly District Board, Srimati Susila Sundari Dasi, widow of the late Babu Bama Cha an Bhar of Haripal, has made over to the Board Government securities to the value of Rs 25,000, and has also presented a two storied masonry building for the purpose The largest number of dispensaries (15) was maintained by the Khulna Board, Patna following with eleven This latter Board also continued to subsidize all the Municipal dispensaries in the district Burdwan, Darbhanga and Monghyr maintained 10 dispensaries each The Shahabad District Board took over the maintenance of the Arrah dispensary The scheme of deputing Medical officers in charge of dispensaries to local markets continued to be tried in the Burdwan, Presidency and Chota Nagpur Divisions The Commissioner of Burdwan reports favourably of the result The floating dispensary established by the 24-Parganas District Board for the Sundarbans is said not to have proved a success, as the intervals between the visits paid to particular localities by the doctor were too long to allow them to be of any practical use He has been instructed to confine his efforts to a limited area, so as to be more in touch with the people to be served The floating dispensary opened through private liberality, during the year on the Taldanga Canal, in the Cuttack district, is said to have been much appreciated by the public The experiment of an itinerary dispensary for the Bhadrak Khas Mahal in the Balasore district is reported to have proved a success In several cases arrangements were also made for the supply of gratuitous medical relief in localities affected with malarial fever or other diseases in an epidemic form The total charges incurred by District Boards on measures for the prevention of plague amounted to Rs 57,765, against Rs 46,900 in the previous year Almost the whole of the expenditure was, as usual, incurred in the Patna Division (Rs 52,362)

19 *Sanitation* (*Rs 31,754*) —The figures under this head show an increase of Rs 7,034, which was shared more or less by all the Divisions As in previous years, the sanitary work done by District Boards was of a somewhat varied character, and included preventive measures against plague, cholera and other epidemic diseases, the disinfection of wells and tanks, and the making of sanitary arrangements at fairs, *melas*, etc The charges incurred by the several District Boards on this account were generally light, but they were

considerable in Midnapore (Rs 3,500), Patna (Rs 6,007), Gaya (Rs. 6,268), Purnea (Rs 2,600) and Cuttack (Rs 3,681) The system of village sanitation, which has been carried out for some years past in Patna, was continued in that district, and was also followed in the districts of Midnapore, Birbhum Hooghly, Gaya, Monghyr and Cuttack Satisfactory work appears to have been done in the Patna, Gaya and Midnapore districts

20 *Veterinary Charges (Rs 37,921)*—The expenditure on this account also shows an increase of Rs 7,136, which was shared by all the Divisions, except the Presidency and Chota Nagpur, where there was a slight decline The largest increases occurred in the Patna, Bhagalpur and Orissa Divisions The District Board of Howrah alone, as in the previous year, returns no expenditure on this account, although it paid a monthly contribution of Rs 15 to the Howrah Veterinary Dispensary The largest expenditure, viz, of Rs. 4,273 and Rs 3,523, was incurred by the Muzaffarpur District Board and the Sambalpur District Council, respectively The former maintained two veterinary dispensaries, one at the Sadar and the other at Sitamarhi, at a total cost of Rs 4,231, besides spending Rs 918 on the itinerant veterinary staff In Sambalpur the increase of expenditure was chiefly due to the employment of an itinerant Veterinary Assistant A sum of Rs 1,868 was spent on the construction of a building for the dispensary and quarters for the Assistant In Purnea the expenditure rose from Rs 675 to Rs 2,033, owing to the construction of a shed for a shoeing forge attached to the veterinary dispensary, and the purchase of the necessary equipment The Veterinary Hospital building at Arrah was completed at a cost of Rs 3,187, and was opened in October 1907 In Saran a Veterinary Dispensary building was in course of construction, and a Veterinary Assistant was appointed towards the close of the year The Champaran District Board employed one itinerant Veterinary Assistant throughout the year The Burdwan Veterinary Assistant was dismissed for extortion and criminal misappropriation, and criminal proceedings have lately been instituted against him Babu Sourendra Mohan Sinha, a public-spirited zamindar of Bhagalpur, constructed a veterinary hospital in March last, and made it over to the District Board furnished and equipped on the 11th May of the current year The total cost, including the cost of building, furniture, instruments, drugs, etc, is reported to have been Rs 11,888 It is contemplated to attach a farrier's department to the hospital, and for this purpose the District Board has sent a *nalband* to Belgachhia for training, on a monthly salary of Rs 20 The local officers report favourably on the working of most of the dispensaries, and there has been a marked increase in the number of cases treated by the veterinary staff in many districts There are distinct indications, in fact, that appreciation of the value of the Veterinary Department is steadily extending among the people, and that the local bodies are taking increased interest in the subject The Lieutenant Governor is glad to learn that in several districts steps have been taken to establish a farrier's shop in connexion with the local veterinary hospital This is a measure of practical utility that might well be adopted more generally The chief difficulty in the past has been to obtain a properly trained farrier, but it should be a simple matter now to have local men thoroughly trained at the Belgachhia institution Sir Andrew Fraser has also noticed with satisfaction the desire shown by the Midnapore District Board to do something towards the improvement of the local breed of cattle This Board has obtained eight stud bulls from Bihar through the Civil Veterinary Department, and intends to distribute these animals to suitable centres in the district that the people may be able to avail themselves of their services Some useful work has already been done in this direction in the Birbhum district, and His Honour would like to urge upon other District Boards the propriety of taking similar action in consultation with the Veterinary Department

21 *Famine Relief*—The expenditure on this account fell from Rs 2,96,772 to Rs 86,626 The bulk of the charges (Rs 62,379) was incurred in the Patna Division, the Presidency and Bhagalpur Divisions following with an expenditure of Rs 11,665 and Rs 9,322, respectively Rs 41,569 were spent on gratuitous relief in Muzaffarpur. In Nadia relief works were

opened on several roads under the contract system, by making advances to zamindars, members of the District and Local Boards and other gentlemen of the locality Nearly Rs 34,000 were advanced in this way The District Board of Murshidabad expended Rs. 1,441 on the survey of roads for famine projects The District Board of Monghyr spent Rs 3,443 during the year towards repairing the damage caused by floods, and this sufficed to provide employ ment for those able to work In the Bhagalpur district acute distress continued to prevail in the Madhipura and Supaul Subdivisions till the middle of June, owing to the wholesale damage done to the crops by floods The Board spent Rs 3,824 in Madhipura and Rs 2,055 in Supaul in repairing and constructing *bandhs* In Cuttack a sum of Rs 1,050 was spent for gratuitous relief in the affected areas in the Jaipur and Kendrapara Subdivisions With a view to provide work for the distressed people, road and tank works costing about Rs 15,000 were also undertaken by diverting funds from the ordinary channels of expenditure. The Balasore District Board had to incur heavy expenditure in repairing the damage done by floods to roads and buildings A sum of Rs. 17,454 was advanced to the Collector for gratuitous relief and test works In Puri scarcity occurred in the neighbourhood of the Chilka Lake, as well as in the Malichpur tract, where test works were opened in December Rupees 8,381 were paid from the District Fund up to the end of March 1908 on account of these works In all these cases where the accounts had been duly completed, the usual refunds were made from Provincial revenues, the policy of Government being to recoup the Boards for the charges incurred, except in respect of works directly beneficial to the Boards themselves

22 *Civil Works (Rs 45,67,276)*—The expenditure incurred by the District Boards under this important head has steadily increased during the past five years from about 31 lakhs to 45½ lakhs of rupees The figures for 1907-08 show an increase of close on two lakhs over those of the preceding year Complaints are frequently levelled at the administration from time to time that sufficient attention is not given to the maintenance in efficient condi tion of the mufassal roads and communications It is impossible to peruse the Divisional reports for the past year without being struck by the enormous activity that is being shown by the Boards, especially in the districts of the Patna and Bhagalpur Divisions, in the improvement of communications The increase in charges under 'Roads' alone during the past year amounted to Rs 2,01,708 for the whole province The greatest activity in respect of original works of communication was shown in the Patna, Bhagalpur and Orissa Divisions, where the expenditure exceeded that of the previous year by Rs 1,17,349, Rs 1,25,656 and Rs 46,816, respectively The Boards taken all together maintained during the year 2,756 miles of metalled, 18,450 miles of unmetalled, 14,650 miles of village roads—an increase of 113 miles in all over the figures for 1906-07

23 It is chiefly, however, in respect of the all important matter of bridges that progress has been made during recent years, and the long lists of iron and masonry bridges completed or partially constructed, contained in the reports for the past year, show that rapid progress is being made in this direction Large and important bridges were built in the districts of Patna, Gaya, Shahabad, Saran, Muzaffarpur, Champaran, Darbhanga, Monghyr and Bhagalpur, and important new roads were constructed in the Hooghly, 24-Parganas, Monghyr, Bhagalpur, Balasore and Ranchi districts A few only need be specified In Gaya the large iron girder bridges over the Punpun on the Jehanabad Arwal Road, and over the Jamuna at Jehanabad, were under construction The bridge over the Jamuna on the Gaya Shergati Road was completed In Shahabad, the Thora Bridge was finished at a cost of Rs 49,329 In Saran eight screw-pile bridges were constructed at a total cost of Rs 54,375 In Darbhanga fourteen screw pile bridges were completed at an aggregate cost of Rs 69,713, and Rs 10,764 were spent on additions and alterations to the Mohni Bridge In Monghyr two important steel bridges on the Mansi Balhi Road were under construction, and additions of 3 spans of 30 feet each were undertaken to each of two other large bridges, the water way of which had been found insufficient at times of high flood The construction of the

important pontoon bridge over the Bur Gandak river at Atharghat, referred to in last year's Resolution, was completed during the year by the Muzaffarpur District Board, which also opened for traffic two steel girder bridges, one of 3 spans of 100 feet each over the Puranadhar-Baghmati river, and the other of 3 spansof 60 feet each over the Kola river This District Board also undertook the construction of a masonry bridge of 6 spans of 15 feet each on the Tajpur Ghât Road The Champaran District Board undertook the construction of a screw pile bridge 200 feet long at Gheghwa on the Motihari-Tetaria Road The decline in expenditure under "Other works of improvement" is accounted for by the fact that in the previous year the District Board of Gaya made a grant of one lakh towards the Gaya water-works scheme, which was shown under this sub-head

24 *Water supply and Water works* (*Rs 1,23,511*) —The Lieutenant-Governor regrets to notice that the expenditure on original works of this nature declined by Rs 17,311 "Repairs" shows a small increase of Rs 2,623 The decrease in expenditure occurred in all the Divisions, except Patna, where the total outlay rose from Rs 7,929 to Rs 16,311 All the District Boards in the Province incurred expenditure on original works, except Manbhum The largest amounts were spent by the District Boards of Jessore (Rs 17,178), Khulna (Rs 12,841) and Nadia (Rs 10,699) A large number of wells and tanks were constructed, excavated and repaired in the Jessore, Khulna, Patna, Gaya, Saran, Champaran, Muzaffarpur and Howrah districts

25 *Drainage* —The total outlay under this head, both on original works and repairs, amounting to Rs 3,786 against Rs 1,593 in the previous year, was incurred in the Presidency Division The expenditure was mainly due to the maintenance of the Khurda Khal, the improvement of drains within the area of the Basudevpur Union in the 24 Parganas, and of drainage generally in the subdivisional town of Magura in Jessore The work on the Magrahat scheme referred to in last year's Resolution is proceeding under the control of the Public Works Department of Government The scheme for the improvement of the Nawi and Sonthi rivers in the 24-Parganas has been sanctioned under the Sanitary Drainage Act The scheme for the re excavation of the Bageikhal, and the improvement of the bed of the river Jamuna which concerns the three districts of the 24 Parganas, Nadia and Jessore, is still under consideration A surveyor has been appointed to determine the area affected, with a view to the apportionment of cost among the three districts In Nadia, the Choroikol Drainage Scheme under the Bengal Drainage Act has been sanctioned by Government The drainage scheme for the improvement of the town of Bagerhât in Khulna has not yet been settled The proposal of the Drainage Committee to create a special Engineering Division at the cost of General Revenues, consisting of an Executive Engineer and subordinates, to be charged with the examination of the drainage conditions of specified areas and for the preparation of projects for the improvement of drainage where necessary, is still under the considera tion of the Government of India

26 —*Roads* The expenditure on account of repairs of metalled and unmetalled district roads rose from Rs 15,61,300 in 1906-07 to Rs 16,88,688, while that on account of construction increased from Rs 13,97,057 to Rs 16,58,699 The cost of construction of village roads also increased from Rs 28,866 to Rs 41,599 Special activity was displayed by the District Boards of Shahabad, Saran, Champaran, Darbhanga and Muzaffarpur in enforcing the by-laws for the preservation of roads and removal of encroachments on them In Muzaffarpur 453 cases were instituted under the by laws and 426 convictions were obtained. Eight hundred and forty two encroachments were removed without prosecution on service of notices from the District Engineer's office, and 4 were rectified by subordinates during the execution of works. In Shahabad 110 cases were instituted under the by law which makes it an offence for carts to use the metalled portion of some roads during certain months of the year In Saran 862 cases were instituted under the by-laws The Commissioner will be asked to look into the nature of these cases, with a view to seeing that cart drivers are not unnecessarily harassed by road subordinates.

27 *Railway Feeder Roads.*—It is satisfactory to notice that the progress under this head noticed in last year's Resolution was fully maintained during the year In Burdwan four feeder roads were in progress of construction In Birbhum Rs 15,376 were spent on the improvement of certain feeder roads In Bankura five such roads were completed and three were under construction, but out of the grant of Rs 25,000 received from Government for the construction of two feeder roads, the Board failed to spend more than Rs 2,791 This is unsatisfactory, as the Commissioner has observed In Midnapore one feeder road was completed and three were under construction, on one of which, namely the road from Danton to Gopiballavpur, the Board spent Rs 22,465 during the year. In Hooghly six roads were in course of construction, and Rs 12,481 were spent on this account. In Howrah Rs 11,464 and Rs 18,535, respectively, were spent on the construction and improvement of roads communicating with the Bengal Nagpur and the Howrah Amta Railways In the 24 Parganas three out of four feeder roads under construction in the previous year were completed In the Gaya district Rs 13,234 were spent on four feeder roads In Shahabad the Sheosagar Feeder Road in the Sasaram subdivision and the Durgauti Feeder Road in the Bhabhua subdivision were completed at a cost of Rs 11,799 and Rs 3,992, respectively In Champaran, out of the two feeder roads to Champatti station commenced during 1906-07, the road from Champatti bazar to Champatti station was completed during the year The improvement of the Baraila road in Muzaffarpur, a feeder to the Katihar branch of the Tirhut State Railway, was completed at cost of Rs 49,899 On the Jale Road, a feeder to the Jogiara station of the same railway, a masonry bridge of two spans of 10 feet each was built, while some-earth work was done and boundary stone posts were fixed at an expenditure of Rs 2,828 The Boards of Monghyr and Bhagalpur are reported to have made further progress with feeder roads in these districts The Cuttack District Board undertook the remodelling of the Vyassarobar-Jajpur Road at a cost of Rs 15,418, and the gravelling of the Vyassarobar Keonjhur Road (Rs 4,293) In Balasore Rs 9,832 were spent on the construction of the Kenduapada Feeder Road In Puri the Delang Kanas Road was under construction The Hazaribagh District Board undertook the construction of a feeder road from the Grand Trunk Road to the Nimiaghat railway station on the Grand Chord line, involving an expenditure of Rs 5,896

28 *Miscellaneous Improvements (Arboriculture)*—Sir Andrew Fraser is glad to notice that the expenditure on arboriculture shows a further satisfactory rise from Rs 29,017 in 1906-07 to Rs 37,588 The largest outlay (Rs. 5,017) is returned from Monghyr, and the smallest (Rs 200) from Howrah The District Boards in the Patna and Bhagalpur Divisions showed special activity in the promotion of road-side tree planting New programmes for carrying out work on a systematic basis were prepared and acted upon by the District Boards of Hooghly, Saran, Monghyr, Purnea, Cuttack and Balasore Ten District Boards are reported to have derived an income from the sale of fruits and timber, the largest income (Rs 2,673) having been obtained by the Shahabad Board There is no reason why all the Boards should not derive some income from this source. The work done by the Shahabad District Board deserves special mention In that district 2,451 new gabions were constructed on the sides of the Anaith-Tikpukar and Bihia-Kamariawar Roads, while 2,698 gabions were renewed on the Garhani Bihia Road Seven hundred and fifteen trees were replanted, and 540 newly planted The expenditure on the maintenance of nurseries and road side trees amounted to Rs 2,073 The new avenues, 38 miles long, on the Piru-Bihia, Sinha Bihia, Nasriganj-Dumraon and Dharhara-Bahiara Roads have proved a complete success. Much credit is due, in the Lieutenant-Governor's opinion, to the District Engineer, Mr. Edwards, for the personal attention which he has paid to this work, which means a lasting boon to travellers Very good work in this respect was also done in the Monghyr district by the District Engineer, Mr Jolly Most of the District Boards appear to have deputed an Overseer or Sub Overseer to the Royal Botanic Garden at Sibpur for training in Arboriculture, in accordance with the orders of Government, but all the reports do not give information on the point

29 *Railways and Tramways*—The Barasat Basirhat Light Railway has now become a source of considerable revenue to the District Board of the

24-Parganas The extensions of the railway to Taki and Hasnabad, and the construction of a branch line from Beliaghatta station to Pattipukur were sanctioned by Government during the year The further extension of the line to Satkhira is under consideration In Nadia the estimate for the proposed light railway from Krishnagar to Jelinghee, as prepared by the Eastern Bengal State Railway, is still under consideration The extension of the Bakht arpur-Bihar Railway, in the Patna district, to Silao has received the sanction of Government The survey of the proposed light railway from Arrah to Sassaram has been completed, and the question of the construction of the line is now under consideration A survey has also been made, and an estimate prepared, for the construction of a line from Dehri to Rohtas The District Board do not propose to guarantee this line, since it is more or less a speculation on the part of a private firm to enable them to get their lime from the quarries near Rohtas to the main railway line In Saran land acquisition proceedings in connexion with the proposed Chapra-Masrakh line, and survey operations on the proposed Thawey Domritola extension of the Bengal and North Western Railway, were started during the year The survey of the proposed direct line of railway from Muzaffarpur to Dar bhanga, with a branch from Tewara to Sitamarhi, was completed by the Bengal and North-Western Railway Company The question of constructing a light railway from Samastipur to Roserha, in the Darbhanga district, on the guarantee system has been abandoned until definite information is forthcoming regarding the proposed construction of a new line in connexion with the Bengal and North Western Railway from Darbhanga to Khagaria Statistics are being collected by the Monghyr District Board in connexion with a pro posal to construct a light railway from Monghyr to Kharagpur The four guaranteed lines in working order in the Province continued to work satis factorily The Boards' shares of the surplus profits in 1907 were—

	Rs
Howrah (Howrah-Amta line)	40,536
Hooghly (Howrah-Seakhala) .	2,729
24-Parganas (Barasat-Basirhat) ..	16,097
Patna (Bakhtiarpur Bihar line)	4,501

30 *Contributions* (*Rs 19,578*)—The disbursements under this head fell by Rs 22,449, as the Boards have been exempted from payment of audit and banking fees with effect from the year 1907 08

31 *Debt* (*Rs 8,73,181*).—The large fluctuations under the sub head *Deposits and Advances* are due to the fact that heavy sums had to be paid as advances in 1906-07 in Darbhanga, owing to famine and floods, and to the advances and refunds made for the construction of Primary School buildings

32 *Closing balances* (*Rs 28,38,505*)—The actual aggregate closing balances of the 29 District Boards, excluding deposits, amounted to Rs 25,86,456, against Rs 27,98,583 at the close of the previous year The decrease is satisfactory so far as it goes, but the Lieutenant-Governor desires to impress upon the Boards the necessity for further improvement in this respect The attention of Commissioners is invited to the remarks made on this subject in the Resolution on the Reports for the year 1906 07 The best results during the year have been shown by the Bhagalpur Division, where the balances fell from Rs 2,79,871 in 1906 07 to Rs 1,64,969, and the worst by the Chota Nagpur Division, where they rose from Rs. 2,57,521 to Rs 4,32,094 Taking indivi- dual districts, the best results are returned from Monghyr, where out of a total sum of Rs 3,72,922 available for expenditure, the balance at the end of the year was only Rs 28,007 , and the worst from Ranchi and Hazaribagh The Commissioner has already taken notice of the neglect in these two latter districts. The large balance in the 24-Parganas was chiefly due to the fact that the balance of the instalment of the loan taken by the Board for the Magrahat Drainage Scheme, amounting to Rs. 1,42,102, is included therein.

33 *General Remarks.*—The following Vice-Chairmen of District Boards have been specially mentioned by the local officers for the good work done during the year —Chaudhry Abdul Gafur, Birbhum , Babu Sital Prasad Ghosh, Midnapore , Babu Khirod Krishna Biswas, Hooghly , Babu Kulada Prasad

34 The record of the year's work is on the whole a satisfactory one The Lieutenant-Governor has been much pleased to read the favourable reports recorded by most of the District Officers of the cordial relations that have existed between them and the District Boards, and of the active interest taken by members in the administrative work of the Boards Sir Andrew Fraser desires to take this opportunity, at the close of his tenure of office, of placing on record his grateful acknowledgment of the assistance that has been rendered to Government by these bodies In many cases, on the other hand, the attitude of the Local Boards is said to have been apathetic Sir Andrew Fraser trusts, however, that his proposals for improving the status of these bodies may yet be given effect to, when it would be possible to assign to them extended functions and responsibilities, and thus increase their interest in their work His Honour has already agreed to remove what is in many cases regarded as a grievance, by allowing non official Vice Chairmen of District Boards and non official Chairmen and Vice Chairmen of Local Boards to draw travelling allowance for journeys performed in the interests of the Boards, and for the purposes of the Act

By order of the Lieutenant Governor of Bengal,

C E A W OLDHAM

Secretary to the Government of Bengal

RESOLUTION ON THE REPORT OF THE DEPARTMENT OF AGRICULTURE, BENGAL, FOR THE YEAR ENDING THE 30TH JUNE 1908

REVENUE DEPARTMENT—AGRICULTURE

Calcutta, the 11th November 1908

RESOLUTION—No 4298

READ—

The Report of the Department of Agriculture for the year ending the 30th June 1908

The Report has been prepared by Mr W R Gourlay, I C S, who succeeded the Hon'ble Mr C E A W Oldham, I C S, on the 12th of November 1907, and has since held charge of the Department There has been some delay in the submission of the Report which, it is hoped, will be avoided in future

2 *Organization of the Department*—The creation of a Subordinate Agricultural Service, comprising officers drawing less pay than Rs 150 a month, has received the sanction of the Government of India The question of a Provincial Service is still under consideration Mr C S Taylor, B A, Agricultural Chemist, and Mr E J Woodhouse, B A, Economic Botanist, joined the Department during the year They have undergone a preliminary training, the former under Dr J W Leather, at Pusa, and the latter under Professor A Gammie, at Poona The office of the Registrar of Co operative Credit Societies has been made subordinate to the Director of Agriculture who has been gazetted Director of Co operative Credit Societies, and the former has been appointed an Assistant Director of Agriculture

3 *Quinquennial wage census*—The statistics of wages of skilled and unskilled labour now furnished in the fortnightly returns being unsatisfactory, the system will be replaced by a quinquennial wage census to be carried out by the Director of Agriculture on the lines of a scheme drawn up by Mr Moreland, Director of Land Records and Agriculture, United Provinces of Agra and Oudh Arrangements were made during the year to hold the first census in August 1908 One officer was chosen from each district for the collection of the required statistics These officers were called together in Calcutta, and the Director, after having consulted Mr Moreland at Lucknow, explained to them the methods and objects of the enquiry The statistics thus collected were to be checked by means of returns obtained from non-official gentlemen who were furnished with forms and suitable instructions

4 *Agricultural stations*—Considerable progress was made towards completing the requirements of the Province in respect of agricultural stations contemplated in the scheme for the development of the Agricultural Department The stations at Bankipore and Sabaur are practically complete At Chinsura, which will represent the deltaic alluvium, much progress has been made At Kharagpur 200 acres of land have been made over by the Public Works Department for a station to represent the laterite area which stretches across the districts of Midnapore, Birbhum and Bankura A site has also been selected, and the land will shortly be acquired, for a station at Ranchi representative of the peculiar agricultural conditions of the Chota Nagpur plateau These will complete the required number of stations A short account of the work of the existing agricultural stations is given in Appendix III to the Report

A demonstration farm, consisting of about 70 acres, has been opened at Kalimpong in the district of Darjeeling It will be worked by the St Andrew's Colonial Homes assisted by a Government grant of Rs 5,000 per annum for five years, but the demonstration work will be guided by the Deputy Director of Agriculture

The Agricultural Department has also been given 50 acres of land for a special demonstration farm at Fraserganj

5. *Scientific Experiments*—Experiments on the lines indicated by the Inspector-General of Agriculture were carried on with success at Burdwan and Cuttack The results, which are summarised in paragraph 21 of the Report, have been published in a special leaflet, English and vernacular copies of which have been freely distributed in all jute growing districts of the Province Two well-equipped jute seed farms, one at Purnea and the other at Berhampur, were maintained by the Provincial Agricultural Association, and the 53 acres under cultivation in those farms yielded 230 maunds of excellent seed The low price of jute and high prices of food-grains, combined with unfavourable weather, hindered the jute experiments undertaken by the Indigo Planters of North Bihar and had the effect of considerably decreasing the area sown by them during the year

Experiments in the cultivation of flax had been going on for some time in Bihar In 1906 07 the Bihar Indigo Planters' Association, assisted by a grant from Government, procured the services of a Belgian Expert, Mr E Vandekerkhove His work has had some encouraging results, and it has been decided to retain his services for five years, the Imperial Agricultural Department meeting one half of his salary, and the Provincial Department the other half, all other expenses being defrayed by the proprietors of the Dooriah Indigo Concern A review of the expert's work of the year is given in Appendix II to the Report

The experimental cotton cultivation at Chakradharpur proved a failure as the land was unsuited to the crop

6 *Irrigation*—The well boring staff sanctioned in 1906 07 in accordance with the recommendations of the Indian Irrigation Commission has commenced its work Babu Upendra Nath Sen, a first grade Sub overseer of the Public Works Department was appointed Superintendent of Well-borings in February 1908, and was in training for two months at Cawnpore under the Director of Agriculture, United Provinces The Superintendent has made trial borings at Sabaur, Bankipore and Pusa, and is now stationed at Bankipore where he is training 12 borers, one for each district of the Bhagalpur and Patna Divisions The question of employing a special staff to draw up reports and maps showing the local conditions and needs of each tract as regards irrigation, embankments, etc, and to help small proprietors and tenants to make the best use of their opportunities for improving the irrigation of their lands, is still under the consideration of Government.

7 *Sericulture*—To give effect to the recommendations of the Committee appointed to enquire into the state of the silk industry and the causes of its decline, Babu Apurba Kumar Ghosh, who had been trained in scientific methods of sericulture by the late Mr N G Mukharji, was appointed Superintendent of Sericulture, with effect from the 1st April 1908 The sericultural work has been placed under the control of a Managing Committee with the Director of Agriculture as its President On a suitable plot of Government land 60 acres of mulberry have been planted out, and plans and estimates have been prepared for a central nursery and five subsidiary nurseries Certain experiments conducted by the Superintendent in connection with the cold storage of seed cocoons have been successful The thanks of the Lieutenant-Governor are due to the members of the Bengal Silk Committee for the good work done by them during the period the operations were in their hands The sericultural school at Sabang in the district of Midnapore, which receives a grant of Rs 30 *per mensem* from the District Board, continued to do useful work Four scholarships of Rs 5 *per mensem* have been founded, and a microscope has been purchased, for this school at the expense of Government

8 *Agricultural Education*—At the annual examination held in November 1907, seven students of the agricultural classes at Sibpur obtained diplomas One of these has been appointed a Deputy Collector and another a Sub Deputy Collector Two students have been sent to the Cornell University in America for further scientific and practical training The four students sent to America in 1905 returned in December 1907 The services of one of them have been placed at the disposal of the Government of Eastern Bengal and Assam,

and the other three are employed at the Provincial Agricultural College Favourable reports continued to be received in respect of the students still in America

The syllabus of agricultural teaching framed in 1906 07 has been introduced in the agricultural classes attached to the Cuttack Ravenshaw College and elsewhere

The officers of the Agricultural Department should continue their endeavours to draw the attention of local bodies, private zamindars and others to the importance of disseminating the results of agricultural experiments and of introducing improved methods of cultivation

9 *Publication of agricultural information* —A quarterly journal of agriculture was started with the object of making known to the Agricultural Associations and to the public generally what is being done by the Department, and four issues were published during the year Twelve leaflets, on various subjects connected with agriculture, were prepared and widely circulated The Department also published a list of local names of varieties of sugarcane, and issued, for the use of local officers, a statement showing the normal areas under the principal crops in each district and the percentage of these areas to the normal nett cropped area of the district An agricultural survey of the varieties of wheat grown in this Province was completed during the year, and the results have been published as Departmental Record No 2 A survey of soils has also been made by Mr D N Mukharji, the results of which will shortly be published

10 *Agricultural Associations, Fairs and Exhibitions* —With the establishment of the Bhagalpur Association in May last, there is now a Divisional Agricultural Association in each Division The Lieutenant-Governor is pleased to learn that the Patna and Orissa Divisional Associations continued to do good work, and that the Burdwan Association made great strides under its President, Mr S L Maddox His Honour has also read with much pleasure the account given in paragraph 56 of the Report of the useful work done by several members of Divisional and District Associations The agricultural shows and fairs held during the year, of which a brief account is given in Appendix IV to the Report, received grants in-aid from Government aggregating Rs 7,050

11 *Indigo and Sugar* —The indigo research work, aided by a Government grant of Rs 50,000, was continued The staff, in spite of unavoidable changes in its *personnel*, did good work and received the thanks of the Bihar Indigo Planters' Association The research station was visited during the year by His Honour the Lieutenant Governor, the Hon'ble Mr R T Greer, C S I, Member of the Board of Revenue, and the Inspector General of Agriculture in India

Mr Percy Jones, of Benipur Factory, who has for some time been experimenting with a cane crushing mill and two *rab* making appliances supplied by the Agricultural Department, worked the system at a profit of Rs 2,365, and he expects larger profits this year

12 In conclusion, the Lieutenant-Governor wishes to place on record his appreciation of the services rendered by the Hon'ble Mr Oldham, who began the organisation of the Department and by Mr Gourlay, his successor, for their administration of the Department during the year Mr F Smith, Deputy Director of Agriculture, continued to work with his usual zeal and energy Mr N N Banerjei, the Director's Personal Assistant, did good work in connection with the quarterly journal, the editing of which was almost entirely in his hands

ORDER —Ordered that the Resolution be published in the *Calcutta Gazette* and that a copy of it, with a copy of the Report, be submitted to the Government of India

By order of the Lieutenant-Governor of Bengal,

Offg Chief Secy to the Govt of Bengal.

RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE ON THE ADMINISTRATION OF WARDS' AND ATTACHED ESTATES FOR THE YEAR 1907-08

REVENUE DEPARTMENT—LAND REVENUE

Calcutta, the 10th November 1908

RESOLUTION—No 4369

READ—

The Report of the Board of Revenue on the Administration of Wards' and attached Estates in the Lower Provinces for the year 1907-08

Submission of the report—The preparation of the report under review is stated to have been greatly hampered, as in the previous year, by the unwarrantable delay in the submission of the periodical reports and returns by the local officers The Commissioners of Divisions should now be requested to issue such orders as will in future ensure the punctual submission of these reports and returns

2 *Number of estates under management*—The number of estates under management at the close of the year was 200 as against 190 in the previous year

3 *Payment of revenue and cesses*—The total payments on account of revenue and cesses due to Government rose from 91 1 per cent of the total demand in the year 1906 07, to 92 4 per cent during the year under report The Tagore Estate is again reported to have been a great defaulter in the payment of these dues The Lieutenant-Governor requests the Board to report to Government the reasons which prevented the Manager of the Estate from complying with their orders regarding the preference to be shewn to the payment of these dues over all other charges, and the action which they propose to take in this matter

4 *Collection of rent and cesses*—The collection of rent and cesses due to the estates was 95 7 per cent of the current demand as against 97 2 in the previous year Failure of crops is the reason assigned for short collection in the vast majority of cases

5 *Balances*—The total uncollected balance due to estates under management amounted to Rs 1,15,88,188, which is 128 9 per cent of the current demand, against 69 6 per cent in the previous year The balance is strikingly large, but it is mainly due to the assumption of charge of the Dumraon Estate in Shahabad, late in the year, with a balance of Rs 42,59,244, of which Rs 27,78,084 are barred by limitation The assumption of charge of other estates under similar circumstances, for instance, the Muksudpur Estate in Gaya and the Maheshpur Estate in the Sonthal Parganas, further contributed to this abnormal increase in the uncollected balance of the year The other causes which contributed to bring about the heavy balances of the year were poor collections consequent on damage done to the crops by drought and floods, and the inclusion in old estates under the head "balance" of large sums of money which are wholly irrecoverable and, as such, ought to have been remitted with the sanction of the Board of Revenue before the close of the year The Panchetgarh Estate in Midnapore, the Uttarpara Estate and the Bonchee B L Mukharjee's Trust Estate in the district of Hooghly, and nearly all the estates in the Presidency Division afford instances of this last kind of balance Orissa is the only division in which the total balance was less than the total current demand The number of certificates filed during the year under report exceeded by 568 the number filed during the previous year, but the percentage of realization of the money covered by them was less than the percentage of the last year, being 32 5 per cent as against 34 4 There was also an increase in the number of civil suits instituted during the year compared with the figures of the last year

6 *Payment of debts* —Altogether Rs 35,99,997 were paid in liquidation of debts as against Rs 50,55,144 in the previous year, the percentages of the amounts paid on the total liabilities as they stood at the beginning of the two years being 16 3 and 23 2 respectively In the case of some of the estates the progress made is very unsatisfactory, and the Lieutenant Governor would prefer the prompt release of estates found to be really insolvent, to useless procrastination Since the close of the year a short Bill to amend the Bengal Court of Wards Act IX (B C) 1879, was introduced in the Bengal Legislative Council, empowering the Court of Wards to apply the surplus funds of one Wards' estate to the grant of loans to another on mortgage of immoveable property

7 *Cost of management and expenditure on improvements* —The total cost of management was 10 7 per cent of the total current demand as against 9 5 per cent in the preceding year The only divisions in which the percentage was below the prescribed limit of 10 per cent are the Bhagalpur and the Chota Nagpur Divisions The general increase during the year is due mainly to the payment of grain compensation allowance

The total expenditure on works of improvements, schools and dispensaries amounted to Rs 4,26,302 as against Rs 3,38,657 spent during the year 1906-07 The Lieutenant Governor is pleased to notice that the Bettiah Estate was in a position to spend Rs 24,852 on the construction of a new building for the Raj Entrance School at Bettiah

The agricultural experiments conducted in the various estates during the year were attended with indifferent results, failure in most cases being due to the unfavourable condition of the weather throughout the year

8 *Education of Wards* —The proposal for establishing a separate college for the education of the sons of zamindars, including minor proprietors of Wards' estates, has been finally abandoned, and it has been arranged that the Model College at Ranchi, of which the foundation-stone has been laid by the Lieutenant Governor on the 17th September 1908, should serve this purpose Separate boarding and lodging arrangements for the students of this class suitable to their position and rank in society will be provided

9 The thanks of the Lieutenant Governor are due to the Board for their careful supervision and efficient administration of the estates under their charge during the year The good services of the officers commended by them will be noted in the Appointment Department

By order of the Lieutenant Governor of Bengal,

F W DUKE,

Chief Secy to the Govt of Bengal

2 In reply, I am to request that you will be so good as to convey to the donor an expression of the Lieutenant-Governor's appreciation of his liberality and public spirit

MONTHLY WEATHER AND CROP REPORT FOR OCTOBER 1908

Character of the rainfall—In the first week of the month, the rainfall was general all over the Province It was fairly moderate in the Presidency Division and in North Bihar as well as in Shahabad, Bhagalpur, in the Orissa and Chota Nagpur Division and in Cooch Behar In other districts, the rainfall was light During the remainder of the month there was practically no rain A few scattered showers fell in Midnapore, Hooghly, Howrah, the 24 Parganas, Nadia, Jessore, Khulna, Darjeeling, Cuttack, Balasore, Angul, Puri, Ranchi and Singhbhum The rainfall was below the normal in all districts

The rain during the first week improved prospects and facilitated ploughings for the *rabi* crops Towards the end of the month, however, the want of rain was felt severely Standing crops suffered owing to drought in many districts A rainfall statement for the month is appended

II *Progress of Agricultural operations*—Harvesting of the *bhadoi* crops was nearly completed Some progress was made in the preparation of lands for *rabi* sowings which commenced in some places, but sowings were hindered for want of moisture The pressing of sugarcane commenced in parts of Bihar and Orissa

III *State of standing crops*—The rain in the early part of the month benefited the *aman* paddy crop, but now more rain is urgently needed In Darbhanga, the crop has been cut in many places for fodder

IV *Prospects and probable outturn of the harvests*—Prospects of the sugarcane crop are fair the outturn is estimated at 80 to 85 per cent The outturn of *bhadoi* crops is estimated at about 68 per cent The crop has been poor in Nadia, Murshidabad, Patna, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur and Purnea In the preliminary forecast of the winter rice crop, the outturn was estimated at 80 per cent of the normal, but drought in the last three weeks of October affected the outturn in many districts and the preliminary estimate will not be realised

V *Damage to crops*—Insect-pests did some damage to early sown *rabi* crops in Gaya West winds were injurious in Muzaffarpur

VI *Condition of agricultural stock*—The condition of the agricultural stock of the Province was on the whole good Cattle disease was reported from Midnapore, Muzaffarpur, Darbhanga, Monghyr, Sambalpur, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum

VII *Failure of pasturage and fodder*—The fodder supply was generally good The water-supply was sufficient except in parts of the Singhia outpost of the Rosera thana of the Darbhanga district

VIII *Prices of food-grains*—Prices of food-grains ruled high There was a downward tendency towards the end of the month Stocks of food-grains in Balasore, Palamau and in parts of Murshidabad are reported to be insufficient

IX *Condition of the labouring and agricultural population*—In Lower Bengal, Orissa and Chota Nagpur, weather conditions were favourable for agricultural operations and the labouring classes were able to get enough employment Test works were closed in September in Bankura, Hazaribagh, Cuttack and Ranchi and later on in Angul Large numbers are still receiving gratuitous relief in Orissa The agricultural situation in North Bihar is causing anxiety and scarcity of water is anticipated

The mean pressure, temperature, etc, are deduced from the traces of the Kundsen's Barograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

No. 441 (third publication)—The following particulars, etc., relative to the above, issued by the British Admiralty (No 1588 of 1908), are republished—

Position—Rocky point, lat 43° 00′ S, long 145° 30′ E

Description —The Relief-station is a framed structure, painted red, plainly visible from seaward, a signal staff for signalling to passing vessels has been erected on Rocky point

From the Relief station, a track has been cut to the northward for a distance of about 8 miles to a point abreast of the wreck of the *Acacia*, and to the southward there is a track as far as the north head of Port Davey These tracks follow the coast line, and are nowhere more than one mile distant from it, in 11 place junction tracks have been cut from the shore to the main track

At every quarter of a mile on the main track, iron index hands have been erected, pointing in the direction of the Relief-station and indicating the distance from it A raft has been constructed at the Giblin river, where the depth of water is too great to permit fording

RESOLUTION ON THE REPORT ON PUBLIC INSTRUCTION IN BENGAL FOR 1907-08

GENERAL DEPARTMENT—EDUCATION

Calcutta, the 24th November 1908

RESOLUTION No 8037

READ—

The Report on Public Instruction in Bengal for 1907 08

The year under review has been one of considerable activity and development in almost all departments of education Various schemes of reform have either been completed or set on foot Among the most important of these reforms are the strengthening of the Inspecting staffs for both boys' and girls' schools, the formation of governing bodies for Government colleges and of Committees of Management for Government High schools, the establishment of a training college for English teachers in Calcutta, the extension of the system of guru-training schools, the constitution of a joint Board for the Provinces of Bengal and Eastern Bengal and Assam for controlling the Sanskrit First, Second and Title examinations, the separation of the cadres of the Education Services in the two Provinces, and the transfer to Government service under the Education Department of the Sub Inspectors of Schools who had hitherto served under the District Boards The scheme for opening a residential Arts College at Ranchi received the approval of the Secretary of State during the year, and a residential training school for female teachers at Bankipore has also been sanctioned The Reformatory School at Alipore has been closed, the boys being removed to the Hazaribagh Reformatory School A Conference composed of the leading representatives of Muhammadan Society has worked out proposals for the improvement of Muhammadan education in all its stages Mr J G Cumming, I C S, was on special duty for six months in connection with the whole question of industrial development and technical education in Bengal His report has been received and considered by a Conference since the close of the year Mr E R Watson of the Indian Educational Service was also deputed to make inquiries with regard to specified industries His valuable reports have been considered and widely circulated A Joint Technical Examination Board for the Provinces of Bengal and Eastern Bengal and Assam was constituted during the year to control the Overseers and Sub Overseers examinations The scheme for opening a Central Weaving School at Serampore was sanctioned by the Secretary of State in April 1907 The Principal has lately joined his post, and it is hoped that the project will now develop rapidly Among important questions which were dealt with during the year, but which still await final orders, are the appointment of a Special Adviser to Government, with regard to industries and technical education, the improvement of Government colleges generally, the establishment of a departmental school final examination, the general improvement of secondary and primary education, and the position and prospects of the Provincial Educational Service Lastly, the revision of the Code of Regulations for European Schools has been completed and, the Code itself is about to be published

CONTROLLING AGENCIES.

The cadre of the Indian Educational Service consists of 32 sanctioned appointments, but the ranks of the service are still far below full strength, and the Director reports that at the close of the year only 22 appointments were

filled Mr H A Stark of the Provincial Educational Service has been temporarily appointed as second Assistant Director of Public Instruction as an experimental measure, for six months, in order to enable the Director of Public Instruction to cope with the heavy pressure of work At the end of this period the question of the creation of an additional post as a permanent measure will be considered When the full complement of officers has been recruited under the scheme sanctioned by the Secretary of State for an increase of the inspecting staff, each Division will be placed in the educational charge of an Inspector of Schools belonging to the Indian Educational Service, who will be assisted by an additional Inspector of Schools, who will be a member of the Provincial Educational Service A second Inspectress of Schools has been appointed in the Indian Educational Service and placed in charge of female education in the Hindi speaking Divisions of Bihar, Bhagalpur and Chota Nagpur, Miss Brock's jurisdiction being restricted to the Bengali and Uriya speaking Divisions and to the European schools Five additional Assistant Inspectresses have also been appointed, and there is now an officer of this class working in each Division

Collegiate Education

Consequent on the introduction of the new Regulations of the Calcutta University, college classes have been organised on a new basis The staffs in the Government colleges have been strengthened in order to meet the new requirements, but the larger scheme for the general development of the colleges awaits the sanction of the Secretary of State The Director reports that in the Presidency College there is little corporate spirit or social life and that the state of discipline in the College is not satisfactory This is much to be regretted, and the Lieutenant Governor trusts that the revision and reconstitution of the College Council which has been effected by the present Principal, Mr James, will have important results, and that the whole staff will co operate towards improving not only the efficiency but the general tone of the College The College is at present cramped for want of space and various schemes have been carefully considered by which its needs can be provided for either by expansion on the existing site or by removal to the suburbs It was finally decided last year to enlarge the college *in situ*, and the Lieutenant Governor is unable to accept Mr Kuchler's opinion that the question might well be reconsidered The Minto Hostel for the Hindu students of the Patna College has been completed and occupied, and the hostel for the Muhammadan students is almost ready for occupation A gymnasium shed has been provided, and the construction of the amalgamated laboratories for the college, the Bihar School of Engineering and the Temple Medical School is now engaging attention

Secondary Education for Boys

During the year under review the total number of secondary schools increased from 1,441 to 1,454, in spite of a decrease in the previous year, there was also an appreciable increase in the number of pupils The total expenditure on these schools rose from Rs 25,43,105 in 1906 07 to Rs 26,24,413, a difference of Rs 81,308 The greater part of the increase was, however absorbed by the high schools, a fact which shows that purely vernacular education continues to be unpopular

In the last year's Resolution the Lieutenant Governor indicated the lines on which improvements might be made with regard to secondary education and remarked that the introduction of a school final examination and the institution of a model school in each district were questions of the greatest moment The decision of the Government of India on the first question has been received and a Committee has been constituted to consider the courses of study for the four highest classes of high schools and to make proposals for the introduction of the school final examination

Primary Education

There has been no increase in the number of primary schools The number of pupils, however, increased from 953,455 to 983,254, while the total expenditure on primary education showed an expansion from Rs 26,50,763 to Rs 27,57,661

TRAINING OF TEACHERS

The want of trained teachers conversant with the approved methods of teaching has long been felt in the case of both boys' and girls' schools In the earlier part of the year, the Director of Public Instruction submitted proposals for the establishment of a training college for English teachers at Calcutta, with a senior department for graduates and a junior department for under graduates, and of two training schools for vernacular teachers, one at Calcutta and the other at Bankipore The cost of this scheme rendered it for the time, impracticable, and it was decided to make a beginning on a less ambitious scale A Committee of Educationists was accordingly appointed to consider the question, and in accordance with their recommendation a training college has been opened at Calcutta for the training of a small number of graduate teachers who will be prepared for the Bachelor of Teaching Examination of the Calcutta University The classes of the Hare and Hindu Schools are being utilised for practical work, and the college itself has been named after David Hare in accordance with the unanimous recommendation of the Committee Since the close of the year, sanction has been given to the establishment of a college for Bihari teachers at Bankipore The establishment of residential colleges at Calcutta and at Bankipore for the training of Muhammadan and Hindu female teachers has also been sanctioned The present curriculum of the vernacular training schools is unsatisfactory in several respects, and a conference will be appointed during the ensuing cold weather to examine it and submit proposals for its revision In the case of the Ranchi Training School in particular the curriculum has been found to be needlessly cumbrous and ill-adapted to the capacities and requirements of the aboriginal teachers of Chota Nagpur for whom the school is primarily intended Steps have been taken to exclude Urdu from and to include elementary English in the curriculum and to simplify the existing Hindi and mathematical standards An earnest endeavour was made during the year to improve the existing guru-training schools and to increase the number of such schools so as to provide for one school in each subdivision A number of new buildings were constructed, and at the end of the year 93 new schools were at work

PROFESSIONAL AND TECHNICAL EDUCATION

The demand which the new University Regulations make on all colleges seeking affiliation in law has led to the issue of orders for the closing of the B L classes in Government mufassal colleges with effect from the date of the examination of 1908 Since the close of the year, however, in deference to public opinion, Government has decided to continue the classes in the Patna College and the question of also maintaining such classes at the Ravenshaw College, Cuttack is under consideration The Government Commercial Classes, Calcutta, still labour under the difficulties arising from public apathy, the supremacy of the University examinations and the attraction of Government service, but it is hoped that these classes will prove useful and will develop in connection with the awakening commercial activity of the province

The Sibpur Engineering College had 353 students on the 31st March 1908, as compared with 3?6 at the end of the preceding year The results of the B L and F E examinations continue to be satisfactory There was no improvement in the health of the college The Bihar School of Engineering and Cuttack Survey School continue to work on the old lines It is satisfactory to note that these schools are being used more largely by Bihari and Uriya students for whom they are primarily intended The mining classes connected with the Sibpur College continued to work successfully.

THE EDUCATION OF INDIAN GIRLS AND WOMEN

The situation with regard to female education is decidedly more hopeful At the close of the year there were 1?8,279 girls and women in all classes of public institutions for Indians, showing an increase over 10,000 since the close of the preceding year The Bethune College had a larger number of girls on the rolls than it has ever had before, and the results of the University

examinations were satisfactory as regards both the college and collegiate school With a view to overcoming Muhammadan opposition to female education a special syllabus of instruction has been prescribed, and readers in accordance with the syllabus are now under preparation at Government expense

THE EDUCATION OF MUHAMMADANS

At the close of the year the number of Muhammadan pupils in all institutions showed an increase of 14 per cent over the number of the previous year, but there was a serious decline in the number of Muhammadans receiving a University education. The scheme for the encouragement of Maktabs worked successfully, and many new Maktabs were started

EDUCATION OF SPECIAL CLASSES

The Nawab's Madrassah and the Nawab's High School at Murshidabad are about to be amalgamated, and the Nizamat pupils will study at the amalgamated institution with the privileges they already enjoy There was an increase of 11 *per cent* on the number of aboriginal students returned as being under instruction at the close of the year 1906-1907, the most marked expansion having taken place among the Sonthals There was also a satisfactory increase in the number of pupils of the indigent classes and the low caste Hindus

PHYSICAL AND MORAL TRAINING

The Director expresses a belief that there is a growing tendency on the part of parents and guardians, and of the managers of schools and colleges to realize the futility of allowing students and school boys to interest themselves actively in politics while they are still under instruction, or of entrusting their education to teachers whose influence tends in that direction The Lieutenant Governor trusts that this belief is justified by the facts, and that parents are beginning to recognize and to assist the desire of Government to protect boys and students from ruining their prospects in life by neglecting their studies for the pursuit of political ideals which are pernicious in themselves and which they are unable to understand

It is expected that the operation of the new University Regulations with regard to the residence of students which came into force in the year under review will have salutary effects, but there is much to be done yet to put the hostel system on a satisfactory footing His Honour's thanks are due to Mr Earle, I C S, who was in charge of the Department until the 22nd February 1908, and to his successor Mr Kuchler who has submitted the report under review Sir Andrew Fraser is pleased to acknowledge their unsparing efforts in the cause of education and the ever increasing activity in educational matters and public interest in the subject which are the results of those efforts At the same time there is no escaping the fact, on which the Directer dwells at the close of his report, that the development of education is largely a matter of funds, and that its demands are far beyond the present resources of Government This has been recognized in the Resolution of this Government on the Report on Educational Progress during the years 1902 1903 to 1906 1907, which was published in February 1908, and the Lieutenant Governor can only repeat the opinion then expressed that genuine progress must in great measure depend on the amount of private financial assistance to educational institutions which may be forthcoming It is also of the first importance that the funds at the disposal of the Department should be allotted with the greatest care, and after careful consideration of the respective merits of various schemes and institutions Sir Andrew Fraser hopes that the Director's recommendations for Government grants will in future be prepared on a more definite system than has been the case in past years

By order of the Lieutenant-Governor of Bengal,

H C STREATFEILD,
